(I) Ingersoll Rand

## Vehicle Services

## If your tools aren't working, neither are you

For more than 100 years, professional technicians have relied on Ingersoll Rand for quality and performance on the toughest jobs. Our advanced engineering and manufacturing have set a standard of excellence often copied, but never matched. So, don't settle for less. Count on genuine Ingersoll Rand tools, accessories, and equipment.

## You can depend on Ingersoll Rand

- Best-in-class power and durability
- Improved ease of use
- Reduced downtime
- World-wide service network

## MAXIMUM IMPACT

As if the Ingersoll Rand 2135Ti wasn't already the champion of the $1 / 2^{\prime \prime}$ air impact market, we decided to make it even better.

| MAX Power | 780 ft-lb maximum reverse torque and <br> weighing just four pounds - the best <br> power-to-weight ratio in its class |
| :--- | :--- |
| MAX Control | featherable trigger, wider range of power <br> regulator settings, and patented one <br> hand forward / reverse switch |
| MAX Reliability | rugged design backed by a new <br> two-year limited warranty* |
|  | *Tool registration required |

"I expect maximum performance from my crews. That's why they rely on Ingersoll Rand impactools for every pit stop."
Ray Evernham,
Gillett Evernham Motorsports

For more information about the 2135TiMAX, talk to your tool professional or visit our Web site, irtools.com.

## Contents

Air Impactools ${ }^{\text {Tm }}$ and Accessories
Ingersoll Rand air Impactools are the tools professional mechanics use when nothing else will do the job. They'll break loose a frozen bolt when others can't make it budge. With fewer working parts, simplified maintenance, and less wasted energy, Ingersoll Rand air Impactools are the finest examples of delivering more power to professional mechanics.

## Sockets

Backed by an extensive heritage of reliability and innovation, Ingersoll Rand introduces a comprehensive line of industrial-grade sockets that really make an impact.

## Air Ratchets and Accessories

Compact. Convenient. Real time-savers. Air ratchets have become essential elements in every serious toolbox. Ingersoll Rand ratchets combine access and power to make jobs more productive and profitable, and feature unique qualities you won't find anywhere else.

## Air Cutting Tools, Grinders, and Accessories

With high-strength steels, advanced plastics, and new composite materials in today's cars and trucks, you need versatile tools for precise, controlled cutting. Ingersoll Rand cutting tools are the reliable choice of auto body and repair shops, used for everything from muffler and exhaust work to sunroof installations and body repairs.

## Air Finishing Tools and Accessories

Ingersoll Rand has the most complete line of air finishing tools. Sanders, polishers, and buffers, from traditional styles for heavy material removal to the newest models for excellent control and brilliant surfaces. All Ingersoll Rand finishing tools are designed for long-life and swirl-free finishes.

## Air Drills, Screwdrivers, and Accessories

Ingersoll Rand air drills have industrial-grade chucks and keyless chuck versions that are extra tough for drilling, sawing, valve guide reaming, cylinder honing, and wire brushing. They are powerful, efficient, and durable with smooth, quiet operation.

## Air Hammers and Accessories

Our air hammers are designed so you can let the tool do the work, whether it's cutting, punching, chipping, or scraping. Each air hammer comes with a coil spring retainer for fast and easy chisel changes. You can also buy a five-piece chisel set, or get an Ingersoll Rand air hammer kit which includes both the hammer and the chisel set.

## Mini Air Tools and Accessories <br> 66

Ingersoll Rand offers a full line of mini air tools - the $2101 \mathrm{~K} 1 / 4^{\prime \prime}$ mini impact kit, the 3103 K mini surface prep grinder kit, the 3128 K mini random orbital sander kit, the 3129 K mini polisher kit, and the 7804 K mini $1 / 4^{\prime \prime}$ drill / driver kit.

## Cordless IQ ${ }^{\text {V" }}$ Tools and Accessories

Ingersoll Rand $I^{\mathrm{V}}$ Series cordless tools are specifically designed for the service and production industries - delivering best-in-class power and durability, and a strong commitment to our customers. The same engineering that made our air tools the world's best now delivers cordless technologies that get the most out of every volt.

## Air Compressors and System Components

For more than 75 years, Ingersoll Rand has been the world leader in air compressors and air system components. We understand rising energy costs and reduced margins require increased reliability and efficiency from not only your air compressor, but your entire air system. Simply stated, your air system is much more than an air compressor. It's the complete system - the piping, filters, dryers, drains, hoses, valves, and point-of-use tools.

## Lubrication Equipment and Accessories

Ingersoll Rand lubrication equipment reflects the same high standards of performance as our tools and air compressors, with a full range of products that will keep all types of fluids moving efficiently. These products are the result of more than 70 years of experience in pump and air system technology, and include models specifically designed for popular applications.

Accessories
We offer an extensive line of accessories to match our tools with the requirements of every job. These accessories put the reliability and quality of Ingersoll Rand behind every job you do.

Pullers and Hoists 133
Ingersoll Rand pullers and hoists are designed to handle tough pulling or lifting jobs with minimal effort by the operator. Whether it's a low-, medium-, or heavy-duty job, you can trust our pullers and hoists to carry the load safely and easily.

See page 138 for complete Index

## Air Impactools" ${ }^{\text {m }}$

There are good reasons why Ingersoll Rand pneumatic Impactools are so highly regarded by professionals, especially in the automotive service industry. With decades of proven engineering expertise behind them, our Impactools deliver rugged reliability and power in durable, compact packages. Ingersoll Rand pneumatic Impactools offer the best power-toweight ratios available on the market.

## 2101K

Mini 1/4" Impactool Kit

- Hard-hitting 5-vane motor delivers smooth and robust performance
- Easily accessible forward / reverse switch for one-handed operation
- Includes 10-piece $1 / 4$ " socket set

Fastens conveniently in hard-to-reach places

## 216

In-line Air Impactool
This durable in-line wrench is handy for the cramped spaces common to small engine repair and other general service work. The butterfly-style throttle valve lets you adjust speed smoothly in either direction in one continuous motion.

- Puts power and ergonomics in the palm of your hand
- Contoured composite butterfly throttle for comfort and control
- Recessed regulator dial

## 212

## Air Impactool

Tremendous power and longer life make this wrench a popular choice of professional mechanics for exhaust systems, air conditioning, radiators, body shop, and bench work. The 212 offers all the advantages of the single-hammer impact mechanism for removing and replacing bolts up to $7 / 16^{\prime \prime}$ without a struggle.

- Power up to $180 \mathrm{ft}-\mathrm{lb}$
- More torque, less vibration
- Built-in power regulator helps control torque

## 2115TiMAX

## Air Impactool

The new 2115TiMAX delivers best in class performance for a tool less than six inches long and weighing less than two and a half pounds. The minimal size of this tool will allow greater access to tight spaces, while the minimal weight will reduce operator fatigue ...
all while still delivering
MAX performance.

- Best in class power performance
- Enhanced power settings
- Free two-year limited warranty with tool registration

Best power-to-weight
ratio in its class

## 1/2" Impactools

## 231C

## Air Impactool

The classic 231C is the most popular tool in its class. Introduced over 25 years ago and continuously refined, it offers the sheer power and performance features to tackle the toughest jobs with ease - as well as proven durability and economy.

- Adjustable power regulator
- Pressure-fed lubrication
- Easy-to-service 2-piece construction

The most popular
Impactool in the world

## 244A

Air Impactool
Bring out the "big gun" for tire-changing, shock and spring work, front-end work, and other heavy automotive and truck work. The impact mechanism pumps out $500 \mathrm{ft}-\mathrm{lb}$ of torque at a free speed of 7,000 rpm to get the job done fast.

- Powerful with smooth, balanced blows
- Pressure-fed lubrication system automatically greases
 the impact mechanism
- Non-biased $500 \mathrm{ft}-\mathrm{lb}$ in forward and reverse

## 231HA-2

Extended Anvil Air Impactool
The 231HA-2 has set the standard for Impactool performance for over three decades. Refined engineering and design have perfected performance and made the 231HA-2 one of the most popular tire service Impactools ever. This elite mechanism is the perfect balance between superior power and proven durability.

- Pressure-fed lubrication system
- Handle exhaust directs air away from user
- Adjustable power regulation

| $\begin{array}{c}\text { Top choice in tire } \\ \text { service centers }\end{array}$ |
| :--- |

Genuine Ingersoll Rand Impact sockets are built with top-quality materials for performance and durability. For more information, turn to the sockets section - starting on page 17 . See pages $14-16$ for all other Impactool accessories.

## 2130

## Air Impactool

The 2130 has all the performance features you have come to expect from the Ingersoll Rand family of Impactools. This Impactool features a powerful twin-hammer mechanism and a composite housing, providing superior ergonomics in a lightweight package.

- $550 \mathrm{ft}-\mathrm{lb}$ maximum torque
- Full-stroke tease throttle

- Multi-position power management

> Ingersoll Rand power and durability at an exceptional value

## 232TGSL

ThunderGun ${ }^{\bullet}$ Street Legal ${ }^{T M}$ Air Impactool
As close as you can get to the real racing tools used by 100 percent of NASCAR ${ }^{\circledR}$ pit crews. It features $625 \mathrm{ft}-\mathrm{lb}$ of torque in reverse, with 10,000 rpm to deliver pit crew power, speed, and durability.

- Our fastest $1 / 2^{\prime \prime}$ Impactool
- 10,000 rpm for lightning fast removal is best-in-class

| 8049 |  |  | $(3.1)$ | $(297)$ |  |

## 8049 Model C

Electric Impactool
Delivers maximum torque of 290
$\mathrm{ft}-\mathrm{lb}$. The unique reversing mechanism gives you full power in forward and reverse, making it an excellent choice for tire changing, shock absorber replacement, and exhaust system work.

- Up to 290 ft-lb torque

- Durable, made with ball and sleeve bearing construction
- Back-cap reverse switch allows full power in both directions

No longer URL certified.

Even the industry's hardest-working Impactools could use added protection from the rigors of the jobsite. Our impact boots can be found on page 16. For a complete listing of Impactool accessories, see pages $14-16$.

## 2135TiMAX

Air Impact Wrench
The Titanium 2135TiMAX delivers $1,100 \mathrm{ft}-\mathrm{lb}$ of nut-busting torque in a gun that weighs just 3.95 lb . The 7 -vane power plant drives enough torque to break away a nut tightened to over $1,100 \mathrm{ft}-\mathrm{lb}$ in under six seconds.

- Easy-to-use forward / reverse push buttons
- Professional touch trigger for precision control
- Power control dial

The best power-to-weight
ratio in its class ratio in its class

## Quiet Tools

All the power, without all the noise.
At Ingersoll Rand, we don't just stand behind our tools; we're equally devoted to the people who use them. We're constantly looking for ways to make your job easier.
With the innovative line of Quiet Tools from Ingersoll Rand, you get durable, reliable tools that deliver the power you need, but with less noise. Our patented Quiet Tool technology reduces the sound levels caused by air pulsating through the impact motor, without compromising our best-inclass torque levels.
Power and performance with less noise? Sure sounds good to us.

Extend the life of your tools. Even the most durable and reliable tools need preventive maintenance. Our Impactool tune-up kits and full line of Impactool accessories can be found on pages 14 - 16 .

## 261

Air Impactool
The highly regarded 261 model combines compact size at only $8.8^{\prime \prime}$ long with high output, which makes it perfect for everything from spring work to pinion nut and track pad removal and major engine teardowns.

- Jumbo hammer mechanism
- Up to $1,100 \mathrm{ft}-\mathrm{lb}$ of torque
- Pressure-fed lube system for trouble-free performance and longer life
For optional power regulator, please order
part \#2920-K329.

## 258

Air Impactool
Delivers $1,000 \mathrm{ft}-\mathrm{lb}$ of maximum torque for work on trucks, heavy equipment, and agricultural machinery. Features an excellent power-to-weight ratio for ease of use, as well as a 3-speed power regulator for tailoring output in forward and reverse.

- Fully adjustable power in forward and reverse
- In-handle exhaust directs airflow away from the operator and the work
- $360^{\circ}$ swivel inlet helps eliminate twisted hoses

## 2161XP

Air Impactool
The 2161XP combines a 6-vane, high-output air motor, through-bolt construction, ergonomic handle and housing design to create an Impactool that offers increased power and durability.

- Most powerful 3/4" Impactool in the industry
- Maximum torque of $1,250 \mathrm{ft}-\mathrm{lb}$
- 3-position power regulator and $360^{\circ}$ swivel inlet

The best power-to-weight
ratio in its class
The best power-to-weight
ratio in its class

## 2141

## Air Impactool

The 2141 delivers the best power-toweight ratio and best size ratio in its class. The 2141 also provides great maneuverability for tight, awkward spaces.

- 1,200 ft-lb maximum torque
- Weighs just 7 lb
- Contoured professional touch trigger and ergonomically designed handle for increased comfort

${ }^{*}$ Not pictured.

## 271

Air Impactool
The shortest $1^{\prime \prime}$ air Impactool is also one of the most powerful. It combines a compact size with high power output, making it ideal for tire changing, spring work, pinion nut removal, tractor pad removal, and shock work.

- Impressive power-to-size ratio

- Up to 1,100 ft-lb of torque
- Pressure-fed lube system for longer service life

## 285B-6

## Air Impactool

The 285B models combine exceptional power, control and durability. They deliver 1,770 ft-lb of maximum torque @ 120 psi, with 5,250 rpm free speed and a high-efficiency, 6-vane motor. The swept-back 285B handle provides excellent maneuverability.

- Delivers 1,770 ft-lb maximum torque
- Fast-torque ${ }^{\mathrm{TM}}$ delivers $1,000 \mathrm{ft}-\mathrm{lb}$ in 2 seconds
- Improved feather touch trigger

## 280-6

## Air Impactool

High-production truck tire changing requires the brute force only this jumbo hammer impact mechanism delivers. Reach into deep truck wheels easily with this $6^{\prime \prime}$ extended anvil wrench, designed for high-production truck tire changing.

- 1,600 ft-lb of maximum torque
- Jumbo power mechanism for power and durability
- In-handle exhaust directs air away from user

## 2171XP

Air Impactool
The 2171XP combines a 6 -vane high output air motor, through-bolt construction, ergonomic handle and housing design to create an Impactool that offers increased power and durability.

- Maximum torque of $1,250 \mathrm{ft}-\mathrm{lb}$
- 3-position power regulator
- $360^{\circ}$ swivel inlet

## 290

Air Impactool
Designed for getting into cramped spaces with big power, the 290 has a 3-way adjustable handle. It's a good choice for spring work, tractor pads, bus maintenance, off-road equipment, and farm equipment.

- Up to 1,600 ft-lb of torque

For optional thread-on muffler, order part \#2910-674.

## 295A

Air Impactool
The 295A model combines exceptional power, control, and durability. It delivers power, control, and durability. It delivers
$1,770 \mathrm{ft}-\mathrm{lb}$ of maximum torque @ 120 psi $(1,475 \mathrm{ft}-\mathrm{lb} @ 90 \mathrm{psi})$, with $5,250 \mathrm{rpm}$ free speed and a high-efficiency, 6 -vane motor. The top-mounted 295A dead handle provides great leverage for difficult underbody work.

- Delivers $1,770 \mathrm{ft}-\mathrm{lb}$ maximum torque
- Fast-torque ${ }^{\mathrm{TM}}$ delivers $1,000 \mathrm{ft}-\mathrm{lb}$ in 2 seconds
- Improved feather touch trigger
- Rubber boots protect tools from exterior damage

## 2190Ti-6

Air Impactool
Designed specifically for high-volume fleet service, the revolutionary chainsawgrip handle provides comfortable control to the operator. The 2190Ti-6 delivers an impressive $1,650 \mathrm{ft}$-lb of maximum torque in a lightweight package and comes standard with a $6^{\prime \prime}$ extended anvil.

- 1,650 ft-lb of maximum torque
- Weighs 15.5 lb
- Extended robust anvil bushing provides long life under heavy shop usage

If your tools aren't working, neither are you! Protect your tools with genuine Ingersoll Rand parts and services.

Regular tool lubrication will keep your tool running at peak performance for a longer time. Our full line of air tool lubricants can be found on page 124.

## Ergonomic Accessories

Ingersoll Rand offers a handy line of ergonomic accessories that enable you to work more safely and more comfortably. Our tool boots absorb vibrations and protect the tool from external damage. Ingersoll Rand comfort grips protect you from mechanical shocks and tool vibration, and our braces allow for more consistent torque output and eliminate the need for a dead handle.

## Sockets

Backed by a proud heritage of reliability and innovation, Ingersoll Rand introduces a comprehensive line of industrial-grade sockets consistent with the quality of our best-in-class Impactools.

- Impact-grade chrome-molybdenum steel provides the durability you expect from a global leader
- Highly visible laser etching for easy size identification
- Nearly 800 Impactool socket items for virtually any assembly or disassembly job
- Lifetime warranty

From air compressors to Impactools to sockets (and everything in between),
Ingersoll Rand provides the toughest, highest quality products available.

## Industrial-grade Impact Sockets

Backed by a proud heritage of reliability and innovation, Ingersoll Rand introduces a comprehensive line of industrial-grade sockets consistent with the quality of our best-inclass Impactools.

Features and Benefits

|  | Features | Benefits |
| :--- | :---: | :---: |
| A | Impact-grade toughness | Designed for high-torque applications |
| B | Chrome-molybdenum steel | Forged for high-strength durability |
| C | Laser-etched size labeling | Enables easier identification to get the job done faster |
| D | Electro-phosphate finish | Projects a sleeker look for higher visibility |
| E | Backed by a lifetime warranty | Provides peace of mind with proven reliability |

For more than 100 years, Ingersoll Rand has been designing worldclass tools of the highest quality, durability, and reliability. This legacy of excellence and performance is evident in our line of pneumatic ratchets. Smaller in size and more powerful than competitive models, our ratchets are specifically engineered to make your job easier and you more productive. Our ratchets are also very convenient to use, thanks to enhanced ergonomics.

## 103A

## Air Ratchet Wrench

This air wrench lets you squeeze into very snug spaces without feeling squeezed while you run small fasteners. Excellent for body shop repair jobs and light-duty work under the dashboard.

- Our smallest air ratchet, only $6.5^{\prime \prime}$ long
- Lightweight, only 1.1 lb
- $20 \mathrm{ft}-\mathrm{lb}$ maximum torque

## 104B

Air Ratchet Wrench
Made to fit in the palm of your hand, this compact ratchet is great for small engine repair, headlight service work, and bench work. So easy to maintain - just dip the head in oil.

- Extra-compact
- Easy to maintain
- $20 \mathrm{ft}-\mathrm{lb}$ maximum torque

## 1103

## Air Ratchet Wrench

The 1103 puts the power and speed of a larger tool neatly in the palm of your hand. It's perfect for access under the hood, under the dash, and for collision repair.

- Exclusive TwinPawl Plus ${ }^{\text {TM }}$ head design for durability and long life
- 2-speed power grip ring; ergonomic textured grip
- 25 ft-lb maximum torque; 270 rpm

## 1215Ti

## Air Ratchet Wrench

The enhanced design of the 1215Ti gives you easy access to those knuckle-scraping repairs. You can count on it to deliver the power you need and the reliability and durability you expect.

- Best-in-class torque
- Easy one-handed operation
- Captured head design reduces weight and eliminates "head-spreading"

## 107XPA

Air Ratchet Wrench
Based on the industry's most popular ratchet, the 107XPA delivers an extra measure of durability with an advanced head design, plus a host of other features.

- $54 \mathrm{ft}-\mathrm{lb}$ maximum torque
- $360^{\circ}$ adjustable exhaust directs air away from the operator and the work
- Variable speed lever-style throttle

## 109XPA

## Air Ratchet Wrench

Optimized gear ratio and airflow for extra performance, coupled with exceptional durability.

- $76 \mathrm{ft}-\mathrm{lb}$ maximum torque at 220 rpm free speed
- $360^{\circ}$ adjustable exhaust directs air away from the operator and the work
- Variable speed button trigger

## 1200

Air Ratchet Wrench
Superior comfort and control meet durabilty and productivity in this tough, high-speed ratchet.

- Lightweight composite handle for superior comfort and grip
- Head design features exclusive slip-resistant friction disc for longer life and added durability

## 1111

Knuckle Saver ${ }^{\text {TM }}$
This revolutionary Reactionless Ratchet ${ }^{\mathrm{TM}}$ has a unique reactionless mechanism. It makes gearing unnecessary and absorbs kickback when the nut runs tight.

- Up to $50 \mathrm{ft}-\mathrm{lb}$ torque
- Fastest air ratchet you can buy
- Rear exhaust directs air away from work

Reactionless
Ratchet

## Air Ratchet Boots

Even the industry's hardest-working air ratchets could use added protection from the rigors of the jobsite. Our air ratchet boots and accessories can be found on page 45 .

## Air Ratchet Accessories

Extend the life of your tools with genuine Ingersoll Rand repair kits and replacement parts. Every Ingersoll Rand part is specifically designed to enhance durability and improve the productivity of your tool.

## Air Cutting Tools and Grinders

$2-2$

With high-strength steels, advanced plastics, and new composite materials in today's cars and trucks, you need versatile tools for precise, controlled cutting. Ingersoll Rand cutting tools are the reliable choice of auto body and repair shops, used for everything from muffler and exhaust work to sunroof installations and body repairs.

## 301

## Multi-purpose Air Angle Die Grinder

Part of an expanded line of economical, heavy-duty grinders, the 301 packs valuable features into a compact package. Use it for grinding, edge-breaking, deburring, porting, and polishing. Wherever space is tight, its right-angle configuration provides easy access.

- Compact, lightweight, and easy to handle
- Self-locking throttle
- Precision-machined gearing delivers maximum power transfer

## 307A

## Mini Air Die Grinder

The 307A combines performance and versatility in a lightweight, compact package. It can be used with all types of accessories for porting, weld breaking, and smoothing sharp edges, as well as deburring, polishing, and grinding.

- Standard $1 / 4^{\prime \prime}$ collet for all types of accessories
- Safety lever prevents accidental starts
- Front exhaust helps keep work surface clean

## 302A

## Air Angle Die Grinder

When a straight tool isn't practical for working in confined areas, this economical die grinder with a right-angle head is the one to use. It's compact and well-designed for grinding, porting, polishing, deburring, and breaking sharp edges.

- Precision-machined steel gears
- Positive grip $1 / 4^{\prime \prime}$-capacity collet chuck
- Self-locking throttle lever

## 308A

## Air Die Grinder

A durable yet economical choice offering longer life and higher free speed at $25,000 \mathrm{rpm}$, this general-purpose tool is designed for porting, light weld grinding, and breaking sharp edges.

- Comes with two collet wrenches
- Self-locking throttle lever
- Positive grip $1 / 4^{\prime \prime}$-capacity collet chuck

Our carbide burrs set the industry standard for quality, and come in a variety of types, styles, and sizes. See pages 51 and 52 for our complete line of Ingersoll Rand air cutting tools and grinder accessories.

Surface Conditioning Kits

Tool info for all 301 Series kits.

## 301-2MK

Surface Conditioning Kit
Ingersoll Rand has packed the 301 in a strong, blow-molded plastic case along with four coarse and four medium grit $2^{\prime \prime}$ Roloc $^{\text {TM }}$ surface conditioning pads and a disc holder.

## 301-32MK

Surface Conditioning Kit
This kit contains the 301 in a strong, blowmolded plastic case along with two coarse and two medium grit 3" Roloc surface conditioning pads, two coarse, two medium grit 2" Roloc surface conditioning pads, and two disc holders.

## 301-3MK

## Surface Conditioning Kit

Four coarse and four medium grit 3" Roloc surface conditioning pads are packed in a strong blow-molded case with our popular 301 grinder.

## 301-K

Die Grinder Kit
Ingersoll Rand has packed the 301 in a strong, blow-molded plastic case complete with 10 mounted grinding tips.

## 3102K

## Die Grinder Kit

For the ultimate performance and versatility in a lightweight package with superior maneuverability in an angle grinder, the 3102 is the perfect choice. The 3102 features a composite grip for superior ergonomics and comfort. This powerful grinder can be used in a variety of applications, including porting, weld braking, deburring, grinding, polishing, etc. The kit includes the 3102 Grinder, $2^{\prime \prime}$ and $3^{\prime \prime}$ Quick Change Backing Pads, along with a variety of 2" and 3" Quick Change Sanding Disks, $2^{\prime \prime}$ and $3^{\prime \prime}$ Quick Change Coarse and Medium Polishing Disks, all packaged in a strong,

## 307-K

Die Grinder Kit
The 307-K comes with 10 mounted grinding tips in a strong, blow-molded case.

## 3108K

Die Grinder Kit
The 3108 features a composite grip for superior ergonomics and comfort. These powerful die grinders can be used in various applications including porting, weld braking, deburring, polishing, grinding, and more.

| 3103K | 0.2 (0.15) | 15,000 | 1/4" - 20 Thread | 0.99 (0.45) | 5" | 2.07 | 19.4 | 84.9 / 95.9 | 1/4" | 3/8" (10) |

## 3102

## Composite Die Grinder

For the ultimate performance and versatility in a lightweight package with superior maneuverability, these grinders are the perfect choice. The 3102 features a composite grip for superior ergonomics and comfort. These powerful die grinders can be used in various applications including porting, weld braking, deburring, polishing, and grinding, just to name a few.

- 20,000 rpm
- Safety release throttle
- Positive grip $1 / 4^{\prime \prime}$-capacity collet chuck

## 3108

## Composite Die Grinder

The 3108 features a composite grip for superior ergonomics and comfort. These powerful die grinders can be used in various applications including porting, weld braking, deburring, polishing, grinding, and more.

- 25,000 rpm
- Safety release throttle
- Positive grip $1 / 4^{\prime \prime}$-capacity collet chuck

## 3103K

Mini Surface Prep Grinder Kit

- Ball-bearing construction enhances durability and smooth power delivery
- Double-sided, adjustable speed settings provide variability for a broader range of applications
- Kit includes 14-piece 2" and 3" sanding discs

## 326

## Cut-off Tool

The heavy-duty cut-off tool is designed for durability and on-the-job performance. Ideal for cutting mufflers, tail pipes, sheet metal, nuts, and bolts.

- Provides 18,000 rpm for fast cutting
- Steel shield deflects debris away from operator
- Large hooked locking throttle lever provides user comfort and safety

## 3445

## Air Angle Grinder

The 3445 is the perfect choice for high performance finishing. This 4-1/2" air angle grinder combines a unique motor controller that virtually eliminates overspeeding - with a powerful 0.8 hp motor to provide plenty of power for rust and material removal.

- Rear exhaust with piped-away option
- Composite grip for improved comfort
- Locking lever with tease throttle

In addition to our abrasive convenience packs, Ingersoll Rand offers a line of $2^{\prime \prime}$ and $3^{\prime \prime}$ surface conditioning discs designed to maximize the productivity of our air grinders while ensuring the best possible finishes. See pages 51 and 52 for our full line of cutting tool and grinder accessories.

## 7802SA

## Air Shear

This versatile cutting shear that makes clean cuts in cold-rolled steel up to 20 -gauge without chips is ideal for body shops, sheet metal shops, air-conditioning fabricators, plastic fabricators, heating contractors, and machine shops.

- Cuts squares, angles, and circles
- Long-life tool with heavy-duty cutting blades
- Shears most types of plastics and all types of aluminum, tin, and steel

## 325

## Air Nibbler

Get a bigger bite and better angle cuts with our Air Nibbler. Instead of shearing or sawing, the tool actually "nibbles" cold-rolled steel, plastic, tin, aluminum, and other metals, up to 18-gauge thicknesses at a rate of more than $6^{\prime}$ per minute. It's ideal for paint and auto body shops, tinsmiths, and sheet metal shops.

- Cuts out quarter panels without distorting the edges of the material
- Starts cuts in the center of a panel
- Holds a tight $1 / 4^{\prime \prime}$ radius with great accuracy

## 429

## Air Reciprocating Saw

The 429 is a versatile air saw for cutting intricate shapes and light radius curves in all types of plastics, fiberglass, and composite materials, as well as aluminum and sheet metal. This reduced vibration tool is excellent for body shop repair, muffler and exhaust work, and sunroof installations.

- Comes with 6 high-speed steel cutting blades and 2 hex wrenches
- Cuts flat and curved surfaces
- Durable, long-life tool

## Comfort Grips

| Part Number | Description | For Use With |
| :--- | :---: | :--- |
| SURFACE PREPARATION GRIPS |  |  |
| CG-6X8 | $6^{\prime \prime} \times 8$ 8" sheet of comfort <br> grip material | All tools |

- Cut to size to fit your tool

## Carbide Grinding Burr Kits

Ingersoll Rand carbide burrs are titanium nitride (TiN) coated to provide maximum edge retention and corrosion resistance. The TiN coating can improve the average lifetime of the burr by more than three times. Note: Burrs have a maximum operating speed of 40,000 rpm.

1814TiN

1438TiN

M30TiN

The 30 piece, carbide burr mega set covers a wide range of applications. Handy storage box keeps burrs organized and ready for use.

| Part Number |  | Description |
| :--- | :---: | :---: |
| 1814TiN | 6-piece carbide burr kit | TiN coated carbide burrs $-1 / 8^{\prime \prime}$ shank, $1 / 4^{\prime \prime}$ head diameter with soft-sided case |
| 618TiN | 6-piece carbide burr kit | TiN coated carbide burrs $-1 / 8^{\prime \prime}$ shank, $1 / 4^{\prime \prime}$ and $1 / 8^{\prime \prime}$ head diameters with soft-sided case |
| 1818TiN | 6-piece carbide burr kit | TiN coated carbide burrs $-1 / 8^{\prime \prime}$ shank, $1 / 8^{\prime \prime}$ head diameter with soft-sided case |
| 1816TiN | 6-piece carbide burr kit | TiN coated carbide burrs $-1 / 8^{\prime \prime}$ shank, various head diameters with soft-sided case |
| 1438TiN | 6-piece carbide burr kit | TiN coated carbide burrs $-1 / 4^{\prime \prime}$ shank, $3 / 8^{\prime \prime}$ head diameter with soft-sided case |
| 614TiN | 6-piece carbide burr kit | TiN coated carbide burrs $-1 / 4^{\prime \prime}$ shank, $1 / 2^{\prime \prime}$ and $3 / 8^{\prime \prime}$ head diameters with soft-sided case |
| 1412TiN | 6-piece carbide burr kit | TiN coated carbide burrs $-1 / 4^{\prime \prime}$ shank, $1 / 2^{\prime \prime}$ head diameter with soft-sided case |
| M30TiN | 30-piece carbide burr mega set | TiN coated carbide burrs $-1 / 4^{\prime \prime}$ and $1 / 2^{\prime \prime}$ shank, various head diameters and shapes with hard case |
| 814TiN | 8-piece carbide burr kit | TiN coated carbide burrs $-1 / 4^{\prime \prime}$ shank, $1 / 2^{\prime \prime}$ and $3 / 8^{\prime \prime}$ head diameters with hard case |

## Abrasive Convenience Packs

| Part Number | Description |
| :--- | :--- |
| SANDING VARIETY GRIT PACKS | $2^{\prime \prime}$ AO Series sanding discs -2 each $36,50,80$ grit |
| 02A-VARAO-6 | $3^{\prime \prime}$ AO Series sanding discs -2 each $36,50,80$ grit |
| 03A-VARAO-6 | $2^{\prime \prime}$ CO Series sanding discs -2 each $36,50,80$ grit |
| 02A-VARCO-6 | $3^{\prime \prime}$ CO Series sanding discs -2 each $36,50,80$ grit |
| 03A-VARCO-6 | $2^{\prime \prime}$ and 3" AO Series sanding discs -1 each $36,50,80$ grit |

## Cut-off Wheels

| Part Number | Description |
| :--- | :---: |
| 9520 | $3^{\prime \prime}$ diameter cutting discs (5 pack) |
| 9521 | $3^{\prime \prime}$ diameter cutting discs (50 pack) |

## Bi-metal Reciprocating Saw Blades

These Bi-metal technology blades are created using a solid-state diffusion process that applies high-speed steel to both edges of the backing material, which increases the contact area by 170 percent. Bi-metal blades have a new tooth profile that generates more (but smaller) chips: this reduces frictional heat that is generated during the cutting application, which will enhance overall performance.

| Part Number | Description | Teeth Per Inch | Quantity |
| :--- | :--- | :---: | :---: |
| FINE |  |  |  |
| P4FS-6 | Fine standard pitch | 32 | 6 |
| P4FS-20 | Fine standard pitch | 32 | 20 |
| P4FS-50 | Fine standard pitch | 32 | 50 |
| COARSE |  |  | 6 |
| P4CS-6 | Coarse standard pitch | 24 | 20 |
| P4CS-20 | Coarse standard pitch | 24 | 50 |
| P4CS-50 |  | 24 | 6 |
| EXTRA COARSE | Extra-coarse variable pitch |  | 6 |
| P4EV-6 | Extra-coarse variable pitch | $14-18$ | 20 |
| P4EV-20 | Extra-coarse variable pitch | $14-18$ | 50 |
| P4EV-50 |  | $14-18$ |  |

## Air Finishing Tools

Ingersoll Rand has the industry's most complete line of air finishing tools. Sanders, polishers, and buffers come in a variety of models from traditional styles for heavy material removal to the newest models for excellent control and brilliant surfaces. All Ingersoll Rand finishing tools are designed for long-life and swirl-free finishes.

## 327LS

## Low-speed Air Tire Buffer

Designed for convenience, the many features of the 327LS make it an ideal tool for every tire shop. The quick-change chuck, built-in regulator, and lever-style throttle make patchwork, roughing areas for recapping, and cleaning tire moldings a breeze.

- Trigger design with lock-off feature allows for easy operation and protection from accidental start-up
- Piped-away exhaust (included) directs air away from work area and operator
- Convenient hanger keeps tool within easy reach

## 317A

High-speed Air Sander - 5" Pad
For small jobs and hard-to-reach places, the 317 A is an economical high-speed sander ideal for light sanding, feather edging, and rust removal.

- Easy to handle, compact, and lightweight
- Built-in power regulator
- Comes with two backing pads; one is $3^{\prime \prime}$, and the other is $5^{\prime \prime}$ (stackable)

## 312A

## Orbital Air Sander -

## 3-2/3" x 6-3/4" Pad

The 312A air orbital sander has a free speed up to 8,000 rpm to make fast work of smoothing fiberglass, wood, and body filler, and to take care of any sanding job on paint, metal, and fiberglass. Plus, you can run the 312 A with one hand, using the compact, contoured palm-grip.

- Balanced ball bearing construction
- Automatic release throttle lever with positive stop action
- Built-in regulator for positive speed control

## 315

Twin-piston Straight-line Air Sander -2-3/4" $\times$ 17-1/2" Pad
The twin-piston design keeps extra power in reserve to prevent stalling and tackle sanding jobs like smoothing down body filler or shaping and leveling large, flat surfaces.

- 3,000 reciprocating strokes per minute
- Quick-action paper clamps
- Smooth, reliable power

*314 air angle sander and 319A polisher / buffer not pictured.

## 311A

Dual-action Quiet Air Sander - 6" Pad
A built-in silencer muffles noise as you work with this economical dual-action sander. It's a quality sander used for feather edging, metal preparation, and finish work on body filler. And its dual-action pad motion produces swirl-free finishes.

- Low vibration
- Balanced ball bearing construction
- Adjustable built-in regulator for positive speed control

## 313A

Angle Air Sander - 7" Pad
With up to 5,000 rpm free speed, you can work faster on light and heavy sanding jobs, including roughing body filler, removing rust, and smoothing welds.

- Heavy-duty motor handles tough jobs
- Lightweight, only 4.5 lb
- Ball bearing construction for long life

## 3128K

## Mini Random Orbital Sander Kit

- Delivers swirl-free finishes when feather edging, removing rust, preparing metal surfaces, or smoothing welds
- Durable ball-bearing construction ensures smooth power delivery
- Kit includes 71-piece hook-and-loop discs

## 328B

Geared Orbital Air Sander - 8" Pad
The smooth strength and power of this air-geared orbital sander lets you remove heavy material and body filler on large, flat surfaces leaving a clean, swirl-free finish.

- Dual-action pad motion (5/32" orbit)
- Long-life, low-vibration performance
- Balanced ball bearing construction

## 318A

## Vertical Air Polisher / Buffer - 7" Pad

Buff and polish all painted surfaces easily. This compact, lightweight vertical polisher / buffer gives you the results you want. The variable speed control lever throttle helps eliminate paint burning. Comes complete with a 7" backing pad.

- Long tool life from the planetary gear reduction feature
- Plenty of power from the 1 hp motor
- Handle exhaust directs air away from work area

## 3129K

## Mini Polisher Kit

- Free speed of 6,000 rpm delivers the same performance of polishers twice the size
- Double-sided, adjustable speed settings provide variability for a broader range of applications
- Kit includes 4-piece hook-and-loop pads

## Air Finishing Tools

NOTE: HL models include a hook-and-loop pad

## 4151

## Vacuum-ready Random Orbital Air Sander

This vacuum-ready, low-vibration model produces an ultra high-quality finish and connects easily to central or portable vacuum systems. The 4151 extracts dust and particles through and around the pad, keeping foreign matter away from the motor. The vacuum sanding pad features a unique design with large $1 / 2^{\prime \prime}$ holes for efficient operation. Virtually all dust is instantly channeled away from the work.

- 12,000 rpm free speed for
swirl-free finishes
- Durable, lightweight composite design weighs less than 2 lb
- Lubrication-free motor

## 4152

## Vacuum-ready Random Orbital Air Sander

The 4152 sets a new standard in elite automotive finish work. This fine $3 / 32^{\prime \prime}$ orbit sander helps users achieve high-quality paint finishes. The 4152 utilizes a precision ground counterbalance to reduce vibration. The lubrication-free motor eliminates the worry of exhaust contaminants harming the work surface.

- 12,000 rpm free speed for swirlfree finishes
- Durable, lightweight composite design weighs less than 2 lb
- Lubrication-free motor

## Vacuum Kits and Accessories

Influenced by jet engine technology, the Ingersoll Rand Jet-Vac dust extraction system sucks up more air than it takes to actually run the tool. Perfect for use with our sanders.

| BACKING PADS FOR MODELS 313, 314, 318, 319 |  |  |

The full range of Ingersoll Rand sanding, backing, and polishing pads will help you complete every sanding, polishing, and grinding job to your satisfaction.

## 315-39 Straight-line Sanding Pads

For use with model 315.
Non-metallic material reduces side strap wear caused by
 metallic sanding pads. Fits other similar brands of straight-line sanders.

## 6135A Polishing Pads

Polishing pads have $8^{\prime \prime}$ diameter, $2^{\prime \prime}$ thick polyester foam. For use with models 314, 318 , or any polisher with a $5 / 8^{\prime \prime}-11$ spindle.

## 317-825 Backing Pads

For use with model 317, one each $3^{\prime \prime}, 4^{\prime \prime}$, and $5^{\prime \prime}$ backing pads.

## Aír Drills and Screwdrivers

Ingersoll Rand air drills have industrial-grade chucks and keyless chuck versions that are extra-tough for drilling, sawing, valve guide reaming, cylinder honing, and wire brushing. They are powerful, efficient, and durable with smooth, quiet operation.

## 7802A

## Air Drill

With its industrial-grade $3 / 8^{\prime \prime}$ chuck, this economical choice includes high-quality features for general drilling and hole-sawing jobs. The planetary gear reduction balances the load on bearings and gears for increased tool life.

- Variable speed throttle
- Lightweight, compact drill

## 7802RA

Reversible Air Drill
Use this economical, highquality $3 / 8^{\prime \prime}$ drill for all your general purpose drilling, honing, reaming, and hole-sawing. With its reversible 0.5 hp motor, you can also drive and remove screws - including backing out tight screws without a struggle.

- Reversible motor with a quick reverse lever
- Variable speed throttle for starting holes easily
- Smooth, lightweight, compact drill

## 7802RAKC

Reversible Air Drill / Keyless
Chuck
With its industrial-grade $3 / 8^{\prime \prime}$ chuck, this economical choice includes high-quality features for general drilling and hole-sawing jobs. The planetary gear reduction balances the load on bearings and gears for increased tool life.

- Variable speed throttle
- Lightweight, compact drill
- Keyless chuck

## 7803A

Air Drill
Here's the economical choice
for power - a high-quality air drill designed
for drilling, hole-sawing, cylinder honing, and any other job that calls for a $1 / 2^{\prime \prime}$ size. Its quality features for long life include the industrial-grade $1 / 2^{\prime \prime}$ chuck, ball and needle bearing construction, and double-reduction planetary gearing.

- No-load speed of 500 rpm
- Auxiliary side handle

No matter what your drilling needs may be, count on Ingersoll Rand for the bits required to get the job done. Our full line of bits can be found on page 80 . Additional air drill and screwdriver accessories can be found on page 62.

## 7804K

Mini 1/4" Drill / Driver Kit

- Double-sided, adjustable speed settings provide variability for a broader range of applications
- Double-bearing construction for longer life, impressive balance, and reduced vibration
- Kit includes 22-piece drill bit and driver set

Hard-hitting 5-vane motor delivers smooth and robust performance

## 7807R

3/8" Angle Reversible Drill

The 7807R is an excellent choice for service work requiring a compact, low-profile angle head. It's a durable, reliable tool for drilling in all types of materials, including sheet metal, wood, and composites.

- Durable Jacobs multi-craft chuck
- Reversible, with convenient control
- Precision machine gearing ensures maximum power tranfer and durability

## 371

## Reversible Pistol-grip Screwdriver

The 371 is an excellent choice for soft-draw applications. This tool is well-suited for service work on HVAC systems, instrument panels, and trim components. It delivers reliable performance for driving sheet metal, self-tapping, and wood screws.

- Positive action clutch, for full torque throughout rundown
- Convenient one-handed operation, with reverse control at trigger
- Variable speed throttle for easy starts

## Replacement Chucks and Chuck Keys

| Model | Capacity <br> in $(\mathbf{m m})$ | Thread <br> in $(\mathrm{mm})$ | Chuck Key <br> Catalog Number | Tool Number |

## Air Hammers

Ingersoll Rand air hammers are designed so you can let the tool do the work, whether it's cutting, punching, chipping, or scraping. Each air hammer comes with a coil spring retainer for fast and easy chisel changes.
You can also buy a five-piece chisel set, or get an Ingersoll Rand air hammer kit, which includes both the hammer and the chisel set.

## 115

## Air Hammer

This powerful yet economical high-speed air hammer is designed for light exhaust system work and general cutting, chipping, and scraping.

- Up to 5,000 blows per minute
- Alloyed steel barrel and heat-treated piston for longer life
- Built-in power regulator and trigger control

Also available: 115K includes 5-piece chisel kit.

## 116

## Air Hammer

The economical air hammer
for fast cutting action, especially for medium exhaust system, panel cutting, and general repair work.

- Up to 3,500 blows per minute
- Handles a range of cutting applications
- Longer-life alloyed steel barrel and heat-treated piston

Also available: 116K includes 5-piece chisel kit.

## 121-K6

## Air Hammer Kit

Make fast work of body panel crimping and cutting, bushing, driving, shearing, and general front-end work with this air hammer.

- 3,000 blows per minute
- Tough 1-piece alloy barrel
- Kit includes blow-molded case and 6-piece chisel set
Also available: 121/Q tool only.

A five-piece chisel set in a plastic pouch with $0.401^{\prime \prime}$ shank diameters to match your Ingersoll Rand air hammer. See page 65 for more information about this set and all our other chisels.

## Needle Scaler

| 950018 | Muffler and tailpipe remover |
| 950019 | Pneumatic ball joint separator |

Our mini tools range in size between $5^{\prime \prime}$ and $7-1 / 4^{\prime \prime}$ in length, making them small enough to easily fit in the palm of almost anyone's hand, and ideal for tight spaces and fine detail finish work. They perfectly complement our existing lineup of full-size automotive maintenance and repair tools - delivering the power, versatility, and durability that you have come to expect from Ingersoll Rand.
The mini tools feature composite housings with ergonomic textured grips to provide comfort and exceptional resistance to grease, chemicals, and extreme temperatures. They also feature lightweight, pistol-grip designs with thumb-actuated switches engineered for balance and one-handed operation, variable-speed triggers, and a complete accessory package.

Mini Tools

| 2101K Specifications | $1 / 4^{\prime \prime}$ |
| :--- | :--- |
| Drive - in | $25-40$ <br> $(34-54)$ |

## 2101K

Mini 1/4" Impactool Kit

- Hard-hitting 5-vane motor delivers smooth and robust performance
- Easily accessible forward / reverse switch for one-handed operation
- Kit includes 10-piece $1 / 4^{\prime \prime}$ socket set

## 7804K

Mini 1/4" Drill / Driver Kit

- Double-sided, adjustable speed settings provide variability for a broader range of applications
- Double-bearing construction for longer life, impressive balance, and reduced vibration
- Kit includes 22-piece drill bit and driver set

## 3103K

Mini Surface Prep Grinder Kit

- Ball-bearing construction enhances durability and smooth power delivery
- Double-sided, adjustable speed settings provide variability for a broader range of applications
- Kit includes 14-piece 2" and 3" sanding discs

| 3103K Specifications |  |

## 3128K

Mini Random Orbital Sander Kit

- Delivers swirl-free finishes when feather edging, removing rust, preparing metal surfaces, or smoothing welds
- Durable ball-bearing construction ensures smooth power delivery
- Kit includes 71-piece hook-and-loop discs

## 3129K

Mini Polisher Kit

- Free speed of 6,000 rpm delivers the same performance of polishers twice the size
- Double-sided, adjustable speed settings provide variability for a broader range of applications
- Kit includes 4-piece hook-and-loop pads

## Mini Tool Accessories

| Part Number | Description |
| :--- | :--- |
| MINI POLISHER ACCESSORIES |  |
| 03H-PAD-HL | 3" hook-and-loop backer pad (fits polisher and <br> RO sander) |

50-piece box as shown

Specifically designed for the service and production industries, Ingersoll Rand IQ ${ }^{\text {VW }}$ Series cordless tools deliver best-in-class power and durability, and are backed by our strong commitment to our customers. The same engineering that made our air tools the world's best now delivers cordless technologies that get the most out of every volt. We offer six revolutionary $\mathrm{IQ}^{\mathrm{V}}$ batteries in both lithium-ion and nickelcadmium chemistries, plus three voltage platforms. The IQv Series is also backed by the best warranty in the industry.

# More than just cordless, Ingersoll Rand cordless 

## 100

- First line of cordless tools specifically designed for the professional mechanic
- Delivers unmatched power, durability, and our commitment to enhance your productivity and satisfaction

## Industry-leading durability

- Rugged internal mechanisms last up to five times longer than competition
Metal-reinforced housings add strength for unmatched drop resistance
Engineered composite housings for increased resistance against corrosive chemicals
Built to hit hard - and take a beating - for years

## Smart voltage

- Integrated microprocessor circuitry delivers optimized charging and power
IQ ${ }^{\text {v }}$ lithium-ion and nickelcadmium batteries can be used with any IQ ${ }^{\text {V }}$ Series tool

## IQ ${ }^{\text {V }}$ Grip batteries

- Patent-pending twist-to-lock battery connection
Eliminates wear and tear common with competitive battery mounts

## Intelligent charging

- IQ ${ }^{\mathrm{v}}$ charger works with all voltages of both our lithium-ion and nickelcadmium batteries
- Automatically detects battery chemistry and voltage to optimize charging Renew feature eliminates memory effect in
nickel-cadmium batteries
Extends recharge life - up to three times longer than the competition

## The best cordless tools, backed by the best warranty

IQv" WARRANTY

## Hassle-Free Tool \& Charger Replacement Battery Limited Warra

(i) Ingersoll Rand

- Free extended warranty with registration
- Easy Internet registration or toll-free hotline
- Door-to-door replacement service within 72 hours

Batteries and chargers sold separately.

## W040

QC 1/4" Cordless Impactool
With its $40 \mathrm{ft}-\mathrm{lb}$ of maximum reverse torque, the W040 delivers the right amount of power for tasks involving small fasteners. Its industrial-grade quick change hex lets you change bits easily and enables bind-free operation.

- Compact for easy access in confined spaces
- 40 ft -lb maximum reverse torque
- Lightweight - only 2.7 lb with lithiumion battery

## W150

3/8" Cordless Impactool*
An optimized impact mechanism enables the W150 to deliver $150 \mathrm{ft}-\mathrm{lb}$ of maximum reverse torque with only 14.4 volts. Like its counterpart, the W360, this Impactool features a steel-reinforced frame where tools are most vulnerable to drop damage.

- The most powerful and durable cordless impact in its class

- 150 ft -lb maximum reverse torque
- Lightweight - only 4.7 lb with lithium-ion battery
*Sockets and drill bits not included.

## W360

## 1/2" Cordless Impactool

It's hard to believe the W360 is a cordless tool. At $360 \mathrm{ft}-\mathrm{lb}$ of maximum reverse torque, the W360 produces more power with less voltage, size, and weight than competitive models.

- Pound-for-pound, the most powerful cordless Impactool in the world
- $360 \mathrm{ft}-\mathrm{lb}$ maximum reverse torque
- Lightweight - only 6.2 lb with lithiumion battery

Our IQ ${ }^{\mathrm{v}}$ Series cordless tool boots absorb vibrations and protect the tool from dirt, grime, wear and tear, and accidental external damage. Our boots and other cordless accessories can be found on pages 77-81.

## IQV Series Cordless Kits

Top-selling Ingersoll Rand cordless tools are now available in convenient hard case kits for a quick and easy way to start your new IQ ${ }^{\text {V }}$ cordless tool collection. Individual tools, batteries, chargers, and accessories are available for purchase through our IQ ${ }^{\text {V }}$ Choice program - offering a cost-effective way to expand or upgrade your $\mathrm{IQ}^{\mathrm{V}}$ tool collection later on.

| D650 | 650 (73) | 360 / 1,300 | 5.4 (2.5) | 7.2 (3.3) | 4.5 (2) | 9.2 (23.3) | 67 / 78 | 19.2 |

Sold separately: BC10 battery charger; BL144 Li-Ion and N144 NiCad batteries (for D550); BL192 Li-Ion and N192 NiCd batteries (for D650).

## D040

1/4" Mini Drill
The D040 $1 / 4^{\prime \prime}$ mini drill is the perfect solution for all of your tight access drilling applications. Under 7" long, this tool can fit into even the smallest areas with ease. The $1 / 4^{\prime \prime}$ keyed chuck ensures bit retention and more reliable performance. Weighing only 2.5 lb , the D040 is extremely ergonomic and ideal for drilling small holes and screwdriving.

## D550

Cordless Drill / Driver
Weighing a mere 4.3 lb with a lithium-ion battery, the D550 drill / driver provides 550 in-lb of stall torque. The D550 also features a 17-position ball clutch for convenient over-tightening control.

- 550 in-lb ideal stall torque
- All-metal industrial ratchet lock chuck

- Smallest and lightest cordless drill in its class
- Variable speed trigger ensures maximum control and higher motor durability
- Drop-resistant structural housing protects against breakage

## D650

Cordless Drill / Driver
The D650 features best-in-class weight and power, and features an industrial-duty ratchet chuck that eliminates slipping bits and is faster and easier than competitive equipment to tighten. The D650 delivers 650 in-lb of stall torque, and weighs an impressive 4.5 lb with a lithium-ion battery.

- 650 in-lb ideal stall torque
- All-metal industrial ratchet lock chuck
- Lightweight - only 4.5 lb with 19.2 volt lithium-ion battery

Lightweight - only 4.3 lb with 14.4 -volt lithium-ion battery

## Drill Bits

We offer a variety of drill bits and hex driver bits designed specifically for our cordless drills/drivers. Our complete line of cordless accessories can be found on pages 69-73.

## Cordless Ratchets

Sold separately: BC10 battery charger; BL072 and BL144 Li-Ion batteries; N072 and N144 NiCd batteries.

## R140

## Cordless 1/4" Mini Ratchet

Delivers impressive performance for its size - a mere 2.9 lb with a lithium-ion battery.

- $25 \mathrm{ft}-\mathrm{lb}$ of maximum torque
- Impressive mobility for hard-to-reach tasks
- Compatible with all 7.2-volt IQ ${ }^{\text { }}$ lithium-ion and nickel-cadmium batteries

R380
Cordless 3/8"

## Standard Ratchet

Delivers the perfect combination of power, durability, and convenience. At $70 \mathrm{ft}-\mathrm{lb}$ maximum torque, the R380 is more powerful than any other ratchet in its class.

- Advanced head design - built with the proven 107XPA pneumatic ratchet head
- Proprietary motor control with variable speed
- Compatible with all 14.4 -volt IQ ${ }^{\text {V }}$ batteries including lithium-ion and nickel-cadmium

## Cordless Grinders

| Model | Type | $\begin{gathered} \text { Collet } \\ \text { Size } \\ \text { in } \end{gathered}$ | Power hp | Free Speed rpm | Voltage volts | Weight (tool only) lb (kg) | NiCd Weight lb (kg) | Li-Ion <br> Weight <br> lb (kg) | Length in ( mm ) | Switch Type |

| GR25 | Right angle | $1 / 4^{\prime \prime}$ | 0.35 | 20,000 | 14.4 | 1.8 (0.82) | 3.6 (1.7) | 3.3 (1.5) | 9.5 (240) | Variable speed |

Sold separately: BC10 battery charger; BL144 Li-Ion and N144 NiCd batteries.

## GS25

Cordless Straight Grinder
Versatility without a cord or hose, 0.35 hp motor, battery compatibility, variable speed, and an exclusive motor control that prevents motor damage from heat or stalling.

- 27,500 rpm free speed
- Same proven head and collet as our 3108 pneumatic die grinder
- 2.9 lb with lithium-ion battery

## GR25

Cordless Angle Grinder
Outstanding performance and portability for light-duty grinding. For use with accessories up to $2^{\prime \prime}$.

- 0.35 hp motor delivers impressive power
- Same proven angle head and collet as our 3102 pneumatic die grinder
- Compatible with all 14.4 -volt IQV batteries including lithium-ion and nickel-cadmium

## Cut-off Tool

## GC25

3" Cut-off Tool
The GC25 3" cut-off tool combines power, durability, and portability to make one of the most versatile tools in your box. The only 3 " cordless cut-off tool available, the GC25 is perfect for light-duty cutting jobs including muffler work, bolt cutting, exhaust, and sheet metal work.

- Powerful 0.35 hp motor
- Variable speed trigger provides feather control
- Microprocessor-controlled motor protection

Task Light

|  | 19.2-volt Li-Ion <br> Weight | Length <br> in (mm) | 19.2-volt <br> Battery <br> Runtime |
| :--- | :---: | :---: | :---: |
| Model | $\mathrm{lb}(\mathrm{kg})$ | $8.3(211)$ | 10 hours |
| TL10 | $2.3(1.04)$ |  |  |

Batteries sold separately.
3 -year warranty is not applicable for ratchets and grinders.

## TL10

High Intensity LED Task Light
The TL10 high intensity LED task light utilizes state-of-the-art LED technology to provide the highest quality, brightest light available. An onboard microprocessor allows the TL10 to work with all IQv batteries. The high-output LED bulb offers up to 50,000 hours of bulb life and up to 10 hours runtime (BL192).

- Works with all IQ ${ }^{\text {V }}$ batteries
- $160^{\circ}$ pivoting, low-profile head provides lighting versatility
- High-quality 4-watt LED bulb lasts up to 50,000 hours

## IQ ${ }^{\text {V }}$ Warranty

- 1-year hassle-free tool and charger replacement
- 2-year (or 1,000 recharges) battery limited warranty
- 3-year limited warranty tools and chargers

## IQ ${ }^{\vee}$ Choice

- All tools sold individually - no more bulky combo kits
- Buy only what you need
- Flexibility to upgrade and expand
- Lowest long-term cost of ownership

## Commitment to Cordless

- Full line of cordless tools for service and production applications
- Distinctive products, designed for specific customer needs
- Complete line of Ingersoll Rand accessories optimized for our tools
- More IQ ${ }^{\text {V }}$ Series cordless tools coming soon

## Batteries, Chargers, and Accessories

## Batteries and Chargers

The revolutionary $\mathrm{IQ}^{\mathrm{v}}$ cordless power system features nickel-cadmium and lithium-ion batteries - available in 7.2volt, 14.4 -volt, and 19.2-volt capacities. All of our cordless tools are compatible with both battery chemistries. Our patented $\mathrm{IQ}^{\mathrm{V}}$ Grip twist-to-lock battery mount design eliminates wear and tear common to other types of mount clips and slides.

Our digitally controlled BC10 charger can be used with every one of our batteries. Once a battery is inserted into the charger, it automatically determines chemistry, voltage, and condition, thereby optimizing the charge process.

## Nickel-cadmium Batteries

| Part Number | Description |
| :--- | :---: |
| N072 | 7.2-volt battery |
| N144 | 14.4-volt battery |
| N192 | 19.2-volt battery |

Features and Benefits

- $\mathrm{IQ}^{\mathrm{V}}$ microprocessor-controlled battery technology optimizes battery performance to make sure you get the most power out of every volt
- Renew feature refreshes nickel-cadmium batteries to like-new capacity and extends recharge life up to three times
- Patented twist-to-lock technology firmly holds battery in place - never duct tape your battery to your tool again!

## Lithium-ion Batteries

| Part Number | Description |
| :--- | :---: |
| BL072 | 7.2-volt battery |
| BL144 | 14.4-volt battery |
| BL192 | 19.2-volt battery |
| Features and | - Industry-leading lithium-ion cell technology blows the competition <br> away with over 1,000 real recharges <br> Benefits |
|  | Requiring only one cell to match the power in four nickel-cadmium / <br> nickel-metal hydride cells, Ingersoll Rand lithium-ion batteries offer up <br> to 35\% less weight than the nickel-cadmium version |
| - Patented twist-to-lock technology firmly holds battery in place - |  |
| never duct tape your battery to your tool again! |  |

## Battery Charger

| Part Number | Description |
| :--- | :--- |
| BC10 | Battery charger |
| Features and | - Allows the charger to charge all IQV batteries including all voltages <br> of nickel-cadmium and lithium-ion <br> Benefits |
| - Fully charges most batteries in less than 45 minutes <br> - Renew feature deep-cycle charges nickel-cadmium batteries - <br> eliminating memory effect, restoring to like-new capacity |  |

## Battery Analyzer

| Part Number | Description |
| :--- | :--- |
| BT-IQV | Battery analyzer |
| Features and | - Gives instant access to status information stored on IQ ${ }^{\mathrm{V}}$ batteries |
| Benefits | for determining condition |
|  | - Takes the guesswork out of determining when to replace the battery |
|  | • Easy connection to PC via USB and easy-to-use software |

## Accessory Cases

Ingersoll Rand accessory cases are specifically designed to solve a number of common problems experienced by automotive and industrial professionals. These heavy-duty ballistic nylon cases are conveniently portable, easy to use, and can withstand the abuse any shop environment can dish out. The carriers are available in both book and flap styles.

- Feature magnetic buttons for one-handed bit access
- Metal-reinforced grommets for hanging
- Belt loops for greater mobility
- Unlike plastic cases, these won't damage sensitive work surfaces or break if dropped

## 1/4" Hex Bit Sets

Our quick change driver bits and related accessories are the perfect complement to our compact $1 / 4^{\prime \prime}$ cordless Impactool (all sets come in ballistic nylon accessory cases).

| Part Number | Description |
| :---: | :---: |
| HXNSK-10E | 10-PIECE $\mathbf{2}^{\prime \prime}$ POWER BIT SAE NUT SETTER KIT |
| Sizes | 5/32", 3/16", 7/32", 1/4" 9/32", 5/16", 11/32", 3/8", 7/16", 1/2" |
| Features | - Quick-change hex drive for easy removal |
| - | - Top of the line magnetics for increased bit retention <br> - Full assortment of sizes to be used on any project |
| HXNSK-9M | 9-PIECE $2^{\prime \prime}$ POWER BIT METRIC NUT SETTER KIT |
| Sizes | $5.5 \mathrm{~mm}, 6 \mathrm{~mm}, 7 \mathrm{~mm}, 8 \mathrm{~mm}, 9 \mathrm{~mm}, 10 \mathrm{~mm}, 11 \mathrm{~mm}, 12 \mathrm{~mm}, 13 \mathrm{~mm}$ |
| Features | - Quick-change hex drive for quick and easy removal <br> - Top of the line magnetics for increased bit retention <br> - Full assortment of sizes to be used on any project |
| HXALK-9E | 9-PIECE 2"' MAGNETIC POWER BIT SAE ALLEN BIT KIT |
| Sizes | 1/16", 5/64", 3/32", 7/64", 1/8", 9/64", 5/32", 3/16", 1/4" |
| Features | - Quick-change hex drive for quick and easy removal <br> - Magnetic bit increases strength of hold on screw <br> - Made of high-quality, industrial-grade steel |

## Cordless Accessories

## 1/4" Hex Bit Sets (continued)

| Part Number | Description |
| :--- | :--- |
| HXALK-9M | 9-PIECE 2"' MAGNETIC POWER BIT METRIC ALLEN BIT KIT |
| Sizes | 1.5 mm, 2 mm, 2.5 mm, $3 \mathrm{~mm}, 4 \mathrm{~mm}, 5 \mathrm{~mm}, 6 \mathrm{~mm}, 7 \mathrm{~mm}, 8 \mathrm{~mm}$ |
| Features | - Quick-change hex drive for quick and easy removal <br> - Magnetic bit increases strength of hold on screw |
| HXSQS-2* | - Made of high-quality, industrial-grade steel |

[^3]
## Cordless Accessories

## Drill / Driver Bit Sets

No matter what your drilling needs may be, count on Ingersoll Rand for the bits you require to get the job done. We offer a variety of drill bits and hex driver bits designed specifically for our cordless drills / drivers. (All drill / driver bit sets include case.)

## Black Oxide Bits

These bits are designed for general-purpose, heavy-duty drilling through carbon and alloy steels, aluminum, soft-cast iron, wood, wood composites, and plastics.

| Part Number | Description |
| :---: | :---: |
| DBKBO-20E | 20-PIECE FRACTIONAL JOBBER LENGTH DRILL BIT SET |
| Sizes | (2) $1 / 16^{\prime \prime}$, (2) $5 / 64^{\prime \prime}$, (2) $3 / 32^{\prime \prime}$, (2) $7 / 64^{\prime \prime}$, (2) $1 / 8^{\prime \prime}, 9 / 64^{\prime \prime}, 5 / 32^{\prime \prime}$, 11/64", 3/16", 7/32", 1/4", 5/16", 3/8", 7/16", 1/2" |
| Features | - High-quality black oxide finish <br> - Fully ground for superior quality <br> - Made with high-speed steel |

## Titanium-coated Bits

These bits dramatically reduce heat and friction, making them last many times longer than other bits. Titanium bits are designed for repetitive heavy-duty drilling through common stainless steels, carbon and alloy steels, aluminum, soft-cast iron, wood, wood composites, and plastics.

| DBKTI-20E | 20-PIECE TITANIUM FRACTIONAL JOBBER LENGTH DRILL BIT SET |
| :--- | :--- |
| Sizes | $(2) 1 / 16^{\prime \prime},(2) 5 / 64^{\prime \prime},(2) 3 / 32^{\prime \prime},(2) 7 / 64^{\prime \prime},(2) 1 / 8^{\prime \prime}, 9 / 64^{\prime \prime}, 5 / 32^{\prime \prime}, 11 / 64^{\prime \prime}$, |
|  | $3 / 16^{\prime \prime}, 7 / 32^{\prime \prime}, 1 / 4^{\prime \prime}, 5 / 16^{\prime \prime}, 3 / 8^{\prime \prime}, 7 / 16^{\prime \prime}, 1 / 2^{\prime \prime}$ |
| Features | • Titanium coating for increased protection |
|  | • Fully ground for superior quality |
|  | • Made with high-speed steel |

## Cobalt Bits

These bits withstand high temperature drilling applications for extended periods of time. They're designed for heavy-duty drilling through hardened stainless steels, cast iron, and titanium.

| DBKCB-20E | 20-PIECE COBALT FRACTIONAL JOBBER LENGTH DRILL BIT SET |
| :--- | :--- |
| Sizes | $(2) 1 / 16^{\prime \prime},(2) 5 / 64^{\prime \prime},(2) 3 / 32^{\prime \prime},(2) 7 / 64^{\prime \prime},(2) 1 / 8^{\prime \prime}, 9 / 64^{\prime \prime}, 5 / 32^{\prime \prime}, 11 / 64^{\prime \prime}$, |
|  | $3 / 16^{\prime \prime}, 7 / 32^{\prime \prime}, 1 / 4^{\prime \prime}, 5 / 16^{\prime \prime}, 3 / 8^{\prime \prime}, 7 / 16^{\prime \prime}, 1 / 2^{\prime \prime}$ |
| Features | • Integrated cobalt for maximum protection and durability |
|  | • Fully ground for superior quality |

| Part Number | Description |
| :---: | :---: |
| SDKTI-3E | 3-PIECE STEP DRILL SET |
| Sizes | $1 / 8^{\prime \prime}-1 / 2^{\prime \prime}$ in $1 / 32^{\prime \prime}$ increments; $3 / 16^{\prime \prime}-1 / 2^{\prime \prime}$ in $1 / 16^{\prime \prime}$ increments; $1 / 4^{\prime \prime}-3 / 4^{\prime \prime}$ in $1 / 16^{\prime \prime}$ increments |
| Features | $\cdot 1 / 32^{\prime \prime}$ and $1 / 16^{\prime \prime}$ increments for accurately rounded and smooth holes <br> - Titanium-coated to increase working life <br> - Ideal for drilling repetitive holes in steel, copper, brass, plastic, Plexiglas®, and other materials |
| DDCMK-28E | 28-PIECE DRILL / DRIVE BIT COMBO SET |
| Pieces | 1/16", 3/32", $1 / 8^{\prime \prime}, 5 / 32^{\prime \prime}, 3 / 16^{\prime \prime}, 7 / 32^{\prime \prime}, 1 / 4^{\prime \prime}, 3 / 8^{\prime \prime}$ fractional jobber length drill bits <br> \#6, \#8 slotted driver bits <br> T10, T15, T20, T25 Torx drill bits <br> 1/8", 9/64", $5 / 32^{\prime \prime}, 3 / 16^{\prime \prime}, 1 / 4^{\prime \prime}$ Allen drill bits <br> 2 " magnetic bit holder <br> $3 / 8^{\prime \prime}$ power bit magnetic square drive adaptor <br> $1 / 4^{\prime \prime}, 5 / 16^{\prime \prime}, 3 / 8^{\prime \prime}$ power bit magnetic nut setter |
| Features | - Multiple drill bits and driver bits |
| Part Number | Description For Use With |
| LIGHT HOLDER BOOTS |  |
| W040-B00T-LED | Premium boot with LED flashlight holder (kit includes LED flashlight) |
| W150-BOOT-LED | Premium boot with LED flashlight holder W150 (kit includes LED flashlight) |
| Part Number | Description For Use With |
| PROTECTIVE TOOL BOOTS |  |
| W040-BOOT | Cordless Impactool boot with Ingersoll Rand W040 logo printed on red boot |
| W150-B00T | Cordless Impactool boot with Ingersoll Rand W150 logo printed on red boot |
| W360-B00T | Cordless Impactool boot with Ingersoll Rand logo printed on red boot |
| D550-B00T | Cordless drill boot with Ingersoll Rand D550 and D650 <br> logo printed on red boot  |
| D040-B00T | $\begin{array}{ll}\text { Cordless mini drill boot and chuck key holder } & \text { D040 }\end{array}$ with Ingersoll Rand logo printed on red boot |

## Tool Bags and Holsters

Ingersoll Rand tool bags are designed to help you transport your tools as easily and comfortably as possible. Constructed of double-lined ballistic nylon for durability, these bags also feature a padded shoulder strap and handle for increased comfort. Each bag contains ample room for tools as well as spacious inside and outside pockets for storing accessories. Ingersoll Rand tool bags come in three sizes to fit any need.

Ingersoll Rand Tool Bags and Holsters

| Part Number | Description |
| :--- | :--- |
| TB1 | $16^{\prime \prime}$ tool bag |
| TB2 | $20^{\prime \prime}$ tool bag |
| TB3 | $25^{\prime \prime}$ tool bag |
| CDTHS | Small holster for D040 and W040 |
| CDTHL | Large holster for D550, D650, W150, W360 |

## Air Compressors and System Components

For more than 75 years, Ingersoll Rand has been the world leader in air compressors and air system accessories. We understand the needs and requirements for air systems and the business demands that you face every day. Rising energy costs and reduced margins require increased reliability and efficiency from not only your air compressor, but your entire air system. Simply stated, your air system is much more than an air compressor. It's the complete system - the piping, filters, dryers, drains, hoses, valves, and point-of-use tools.

## Selecting an Air Compressor - FAQs

How will compressed air be used?
The type of work being performed is probably the most important factor in selecting a compressor.

## Where will the compressor be located?

Indoors: heated environment to prevent air lines from freezing while providing sufficient ventilation to cool compressor where elevated temperatures may exist. Outdoors: protection against ambient environment and provisions for cold-weather starting.

## How much pressure (psi) is needed?

Compressor discharge pressure must exceed the psi requirement of all pneumatic tools or equipment being operated.

## How much airflow (cfm) is needed?

Cubic feet per minute (cfm) is the measure of airflow the compressor can create. The measurement cfm is stated in two different forms: piston displacement (pd) or actual cubic feet per minute (acfm). Always consider acfm, as it reflects the amount of useable compressed air.

## What horsepower is required?

Horsepower is directly proportional to the cfm rating of the compressor. The higher the horsepower, the more air (cfm) the compressor can deliver. Do not rely solely on horsepower when specifying or selecting an air compressor.

## What type and size of tank is needed?

The tank provides a reserve of air to meet peak flow and pressure demands. The larger the receiver, the more reserve available. Tanks are available in vertical and horizontal designs; configuration is dependent upon available floor space.

What are the electrical requirements?
Identify available incoming electrical service before specifying an air compressor. Always have a qualified electrician review electrical requirements.
Know Your Power Source
All residential and commercial buildings have $115 \mathrm{~V} / 60 \mathrm{~Hz}$ power. Many residential, commercial, and industrial buildings have 230 V / single-phase $/ 60 \mathrm{~Hz}$ power, but this should be confirmed. When electric power is not available, select a gas engine-driven compressor. Do not use a gas engine compressor indoors.

## Rotary Screw Air Compressors

Rotary screw models compress air through two oil-flooded, intermeshed helical screws. This form of compression offers maximum efficiency at much higher air quality levels than reciprocating models with constant pressure capabilities. Rotary screw air compressors can operate 24/7, continuous-duty at extremely quiet noise levels compared to reciprocating compressors, and have up to five times the operating life.

- Low sound - operates at low sound levels of 64 to 69 dBA
- Closely maintained pressure delivers pulse-free air
- 9,000-hour / 2-year coolant - Ultra-Plus coolant offers superior separation for lower coolant make-up, and will not varnish or sludge; improved cooling characteristics reduce operating temperatures, improving the life of the airend

High-efficiency Integrated Compression

Rotary Screw Airends

Our 5-15HP UP Series rotary screw air compressors provide best-inclass performance in rotary screw technology. Each compressor package comes standard with 230 / 460-3-60 ODP electric motor, air-cooled aftercooler to reduce discharge air temperatures, full voltage motor starter that is mounted and wired (wired for 230-3-60 voltage standard), dual control (auto start and stop, constant speed control), low sound / full sheet metal enclosure, package pre-filter, 9,000-hour rated UltraPlus coolant, spin-on oil filter and separator element, A.S.M.E coded horizontal receiver tank with electric drain valve, and NEMA-1 electrical protection. These models operate at 64 to 69 dBA .
Recommended accessories:

- Installation kit (page 86)
- Maintenance kit (page 87)
- PolySep (page 90)
- PacE controller (page 88)

Are you looking to save space and installation cost by having a complete clean, dry air system in a single package? The UP Series 5-15 HP Total Air System (TAS) is an innovative solution to your compressed air needs. The TAS has the same features and benefits of the standard UP Series 5-15HP unit, but also comes standard with an Energy Star cycling refrigerated air dryer with stainless steel heat exchanger, integrated compressor and dryer controls for optimum operation, panel-mounted dew point indicator, dual filters (general purpose and high-efficiency) mounted and piped, singlepoint condensate drain system with electric drain (115-volt), and highefficiency moisture separator. These models operate at 64 to 69 dBA.

- Two coalescing filters: general purpose and high-efficiency
- Cycling refrigerated air dryer
- Pre-piped, single-point condensate drain system
- Eliminates up to 80 percent of traditional installation cost of individual air treatment equipment
- Intelligent design separates temperature-sensitive components and air treatment center on "cool side" from heat generating airend on the "hot side"

Recommended accessories:

- Installation kit (page 86)
- Maintenance kit (page 87)
- PolySep (page 90)
- PacE controller (page 88)
- Package pre-filters (4 pack)

Ingersoll Rand start-up kits include all the parts needed to maintain your compressor for one year, plus the added protection of extended warranty coverage. Ingersoll Rand air compressor accessories can be found on pages $94-107$.

## Rotary Screw Air Compressors

## UP Series 20-40 HP

## Ultimate Reliability

## Maximum Uptime

Ingersoll Rand is so confident in the performance of the UP-Series that we've extended the warranty to five years.

## Fewer Connections

Smart integration eliminates leaks and pressure drops, maximizing reliability.

## Ultimate Efficiency

## More Air For Your Money

Industry-leading performance delivers more air for less horsepower, saving thousands of dollars per year on energy.

## Smart, Energy-Efficient Controls

Eliminates wasteful unloaded running by unloading rapidly and by cycling the compressor on/off when not needed.

## Ultimate Flexibility

## Compact Footprint

Receiver mounting frees up valuable floor space and reduces installation costs.

## Installation Close To Point-of-Use

Whisper-quiet operation allows for installation closer to point-of-use, reducing costs and ensuring a better, safer work environment.

## Ultimate Productivity

## Closely Maintained Pressure

Reducing discharge pressure and avoiding excessive pressure bands, increases downstream tool and equipment life.

## Rotary Screw Air Compressors

## UP Series 20-40 hp with Integrated Dryer

## Advanced Packaging to Drive Reliability and Uptime

## Smart Integration for 15-30 hp

- "Dry" air receiver mounted in a compact package lowers the cost of installation (optional floor mount also available).
- Integral air cooling with separate flow paths ensure cooling is achieved $100 \%$ of time that the compressor is running.
- Easy access to all compressor and air treatment components, promoting serviceability.
- Package pre-filter for longer component life and reduced maintenance cost.

## Smart Integration for $40 \mathbf{h p}$

- Floor mounted units only (a wide range of free-standing receivers are optionally available).
- Integrally cooled dryer module with separate cooling paths to achieve best overall efficiency and ensure cooling is achieved.
- Spacious design simplifies access and promotes serviceability.
- Package pre-filter for longer cooler life and reduced maintenance costs
- Simplified piping eliminates potential leaks.
- Single-point condensate drain system instead of separate points reduces installation cost.
- Segregated cooling compartment provides advanced cooling flow management and reduces noise level.

## Single and Two-stage Air Compressors

## Single-stage

Single-stage models compress air to a final pressure in one stroke. They generally are used for pressures between 70 and 90 psi (maximum pressure to 135 psi ).

- Oversized belt wheel provides reliable design and cooler operation
- Durable cast-iron cylinders, heads, and frame are designed for continuous operation and extended pump life
- Extended service intervals - Ingersoll Rand synthetic lubricant provides 2,000-hour oil change intervals (four times longer than mineral-based lubricants)
- High-efficiency stainless steel finger valves are simple, efficient, and easy to maintain
- Manual thermal overload protection of the motor - no starter required
- Sight glass makes it easy to check oil level

## Two-stage

A two-stage model compresses air to an intermediate pressure in the first stage, removes heat compression through an intercooler, and compresses air to a final pressure in a second compression stage. Two-stage compressors are more efficient and are generally used for pressures above 100 psi (maximum pressure to 175 psi ).

- Two-stage design provides 175 psi operation
- Removable cylinders are easy to repair and provide even $360^{\circ}$ cooling, which helps eliminate hot spots
- One-piece connecting rod for fewer wear parts

- Low oil level switch provides constant protection
- Centrifugal unloader ensures loadless starts, providing maximum starter protection
- Finned copper intercooler runs cooler in even the most demanding conditions
- Overhung crankshaft is precision-balanced to run smoothly and quietly
- Splash lubrication is simple and reliable

## Twin-stack

## Single-stage - Portable

The Ingersoll Rand twin-stack air compressor is designed to provide power, durability, and portability on the jobsite. Built to last, this oillube compressor with durable cast-iron cylinders is designed for 100\% continuous-duty applications. The twin-stack includes a $1 / 4^{\prime \prime}$ universal coupler, conveniently mounted regulator and pressure gauge, 4.5-gallon twin tanks, All-Season Select ${ }^{\oplus}$ lubricant, and a power cord.

- Lightweight and compact
- Durable cast-iron construction
- Extended pump life - double the life of similar oil-free products

## Wheelbarrow

## Single-stage - Portable

Ingersoll Rand electric and gas engine-driven wheelbarrow air compressors are lightweight with a low-profile design to provide maximum maneuverability. Built to last, these cast-iron, oil-lube compressors are designed for $100 \%$ continuous-duty applications. Includes pressure switch, regulator, and gauge; two quick disconnects to power multiple tools; and twin 8 -gallon capacity tanks. Electric model features a belt drive to provide quiet operation ( 76 dBA ), a $6^{\prime}$ power cord, and dual voltage ( 2 -hp model only). Where electric power is not readily available, the gas-driven model is powered by either a 5.5 -hp Honda or Briggs \& Stratton high-performance engine.

- Designed for maximum maneuverability on the jobsite
- Durable cast iron construction
- $100 \%$ continuous-duty for tough applications
- Includes two quick disconnects to power multiple tools

SS3J5.5GH-WB

## Air Sled

## Single- and Two-stage - Portable

Ingersoll Rand electric and gas engine-driven air sled compressors feature a rugged frame support to meet the rigorous demands of field handling. Base package includes pressure gauge, manual drain, two quick disconnects to power multiple tools, and twin 8 -gallon capacity tanks. Electric model is belt-driven to provide quiet operation ( 76 dBA ) and includes a $6^{\prime}$ power cord. The gas-driven model is powered by a premium Honda engine. Available options include regulation panel, cart assembly, hose rack, and weatherproof cover.

- Ergonomically designed with rugged frame support to meet the rigorous demands of field-handling
- Durable cast iron construction; oil lube
- Two quick disconnects to power multiple tools

Shown with available options.

The complete line of Ingersoll Rand Installation Kits can be found on page 94. The complete line of Ingersoll Rand air compressor accessories can be found on pages 94 - 107 .

## Type 30 Series

## Gas-driven

Ingersoll Rand Type 30 two-stage compressors meet the needs of fleet or field service applications. Featuring truck-bed mounting, Type 30 units include electronic ignition, idle engine control, a 30-gallon ASME receiver, an OSHA-approved, fully enclosed belt guard, and a weather-resistant powdercoat paint finish.

- Durable cast-iron construction
- 175 psi maximum operating pressure
- Extended pump life
- 100\% duty cycle
- Two-year pump warranty with purchase of start-up kit

Please specify voltage required when placing your order.

## Type 30

Standard Package

## 5 to 15 Horsepower

Ingersoll Rand, the world leader in air power, brings industrial-class, two-stage compressors to automotive applications. Featuring a cast-iron pump with splash lubrication for efficient operation and easy serviceability, this new range delivers non-stop performance and reliability for commercial or automotive service applications. Type 30 compressors have been designed to generate maximum air output at 175 psi, with more than 10,000 hours of durability.

- $100 \%$ cast iron cylinder head with deep-groove directional cooling fins
- High-efficiency stainless steel valves
- Oversized industrial-grade bearings for extended pump life
- High-efficiency intercooler
- $100 \%$ cast iron pump
- High-efficiency inlet air filter with sound attenuation baffles
- Balanced pistons for maximized efficiency and mimimized vibration
- Oversized cast-iron balanced belt wheel to allow continuous-duty operation
- Two-year pump warranty with purchase of start-up kit

Purchase an Ingersoll Rand start-up kit and increase the warranty on your pump from one year to two years!

## Lubricants

All-Season Select lubricant is a synthetic, all-temperature blend designed to increase efficiency, reduce wear, and prevent carbon build-up. Use of All-Season Select lubricant extends pump warranty to two years. Ingersoll Rand air compressor accessories can be found on pages 94 - 107.

Please specify voltage required when placing your order.
** (VFP) models include air-cooled after-cooler, electronic drain valve and AS\&S controls. Does not include low oil level switch.

## Type 30 Full Package

In addition to the features on our standard package, the fully packaged models include:

- 5 to 25 hp motors
- Air-cooled aftercooler to help remove additional moisture
- Low oil protection switch to prevent the pump from running dry
- Electronic drain valve that automatically drains water from compressor tank
- Two-year pump warranty with purchase of start-up kit

Purchase an Ingersoll Rand start-up kit and increase the warranty on your pump from one year to two years!

Ingersoll Rand electric drain valves (EDV) are full-feature automatic electronic drain valves that deliver drier air by removing condensate from compressors, receivers, dryers, aftercoolers, filters, and drip legs. Ingersoll Rand air compressor accessories can be found on pages 94 - 107.

## Refrigerated Dryers

Ingersoll Rand refrigerated air dryers protect your tools, machinery, and equipment from harmful moisture while saving energy and reducing system downtime. The unique design improves dryer efficiency and minimizes maintenance by using fewer moving parts. The easy-toread diagnostic controls provide a constant indication of dryer performance. Units are compact, lightweight, and can be easily installed. Ingersoll Rand refrigerated air dryers are ideal for general industrial applications, and they use environmentally friendly refrigerants.

Protect your downstream equipment by preventing 100\% saturated compressed air from rusting tools, and washing away lubricants with a refrigerated dryer. Ingersoll Rand's ISO class 6 refrigerated dryer can handle air flows from 7 to 212 SCFM. The dryer's corrosion resistant heat exchanger is reliable and operationally efficient with low pressure drop and optimized dewpoint performance. An enhanced refrigeration control-system and highefficiency stainless steel moisture-separation ensure a steady long-term supply of dry air. A variable speed fan further ensures continuous heat removal. Simple controls provide user-friendly operation and a fully adjustable programmable electronic drain valve helps minimize air loss.

Enhance your system's protection by adding superior Ingersoll Rand air filters found on page 91. Continuous long-life operation from your refrigerated dryer is enhanced by installing a dryer pre-filter. Prior to the dryer use the recommended GP particulate filters. HE coalescing oil removal filters virtually eliminate cost due to ruined product finishes, scrapped materials or replacement of pneumatic tools and manufacturing equipment destroyed by contaminated air.

## Sizing Table

Site conditions will affect the performance of your refrigerated dryer. Determine your site conditions and multiply the dryer capacity by each factor to determine the air flow that dryer is capable of.

| Dryer Inlet <br> Air Temp <br> ${ }^{\circ} \mathrm{F}$ | Correction <br> Factor | Ambient <br> Air Temp <br> ${ }^{\circ} \mathrm{F}$ | Correction <br> Factor | Inlet Pressure <br> psig | Correction <br> Factor |

## Air Compressor Accessories

## Start-up Kits for Electric-driven

Air Compressors
Start-up kits include all the parts needed to maintain your compressor for one year, plus the added protection of extended warranty coverage. Kits include:

- All-Season Select ${ }^{\oplus}$ lubricant - a synthetic, all-temperature blend designed to increase efficiency, reduce wear, and prevent carbon build-up
- Replacement filter elements
- Engine oil and filters are also included in kits for gas-driven compressors
- 2-year extended warranty (pump only) based on use of All-Season Select lubricant included in kit

*For compressor models SS3, SS5, TS4/5/51, 2340, and 2475 electric units.
**For compressor models TS7, TS10, TS15, 2475, 2545, and 7100 electric units.
***For 2000 Series electric compressor models. The 1" kits do not have vibration pads due to pads being shipped as standard with the 2000 Series air compressor packages.

## Start-up Kit for Gas-driven

 Air Compressors
## Maintenance Kits -

## TS and SS Series Compressors

Ingersoll Rand Type 30 maintenance kits offer all the parts necessary to perform annual factory-recommended maintenance on your Type 30 compressor. Conveniently packaged, the kits can save you 20 to 30 percent more than purchasing parts individually.

## Features

- One fill of All-Season Select lubricant
- One replacement air filter element
- All replacement gaskets and O-rings required to clean and inspect valves
- Easy-off maintenance reminder sticker to track when next maintenance is due

| Model | Valve / Gasket Kit | Ring / Gasket Kit | Bearing Kit | Air Filter | Overhaul Kit | Gasket Kit |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |

## Type 30 Maintenance Kits

| Model | Maintenance Kit |
| :--- | :--- |
| COMPRESSOR MAINTENANCE KITS |  |
| 2340 | 38485314 |
| 2475 | 38485330 |
| 2545 | 38485298 |
| 7100 | 38485322 |

## Lubricants

## All-Season Select Lubricant

All-Season Select lubricant is a synthetic, alltemperature blend designed to increase efficiency, reduce wear, and prevent carbon build-up. It performs four times longer than petroleum-based lubricants. Recommended 2,000 hours of service between lubricant change-out under normal operating conditions.

| Coolant / <br> Lubricant | Base <br> Stock | Viscosity <br> Index | Hours | ISO Viscosity <br> Grade | SAE <br> Grade |

## Air Compressor Accessories

## Electric Drain Valves (EDV)

Ingersoll Rand electric drain valves (EDV) are full-feature automatic electronic drain valves that deliver drier air by removing condensate from compressors, receivers, dryers, aftercoolers, filters, and drip legs.

## Features / Benefits

- Extend life of pneumatic equipment and tools
- Eliminate manual draining
- Prevent rusting and clogging
- 2-year warranty
- Maximum 250 psi

## PacE Controller

PacE air controllers provide total air system control through a single device, giving you the ability to see both upstream and downstream pressures from one convenient location.

## Benefits

- Energy savings of 7 percent for every 14 psi reduction in system pressure
- Reduces pressure of air leaking from a system; all systems can potentially have leaks, but losing air at 80 psi is better than losing it at 125 psi
- Single-point control for your whole system
- Eliminates the need to regulate airflow at every point in the system
- Prolonged compressor and equipment life
- Protects all downstream equipment by preventing high pressure from feeding into the system and reducing the life expectancy of the equipment
- Reduced maintenance costs
- It is possible in some installations to turn off the compressor, achieving power cost savings
- Simple installation and operation

## CMS-6 Condensate Controller

The CMS-6 condensate controller is the industry's most reliable and environmentally safe solution for condensate management in light industrial air systems.

## How the CMS-6 Controller Works

The system's air and condensate discharge enters the CMS-6 through six inlet check valves located on the bottom left-hand side of the unit. Each of these inlets can be connected to any system drain point using the included installation hardware and tubing. When the system's drain valve actuates, the entire condensate supply is relieved through the single discharge line on the bottom right-hand side of the unit. To optimize energy savings and condensate control, the CMS-6's integrated timer is set by the operator to enable condensate control based on the compressor's operating schedule.

| Model | Description |
| :--- | :---: |
| CMS-6 CONDENSATE CONTROLLER |  |
| 38432621 | $125^{\prime}$ of transparent polyurethane $1 / 4^{\prime \prime}$ tubing |

CMS-6 Major Components

1. Installation hardware
2. (6) $1 / 4^{\prime \prime} \times 1 / 8^{\prime \prime}$ NPT inlet check valves
3. Electric drain valve (w/ strainer and drain line)
4. Integrated $24 / 7$ system timer
5. (1) $3 / 8^{\prime \prime}$ system condensate outlet and (1) $1 / 4^{\prime \prime}$ service drain line
6. (1) 115 V electrical connector
$\square$ Represents condensate path

## PolySep Condensate Systems

PolySep condensate systems address the inability of traditional gravity separators to handle emulsions, such as polyglycol lubricant. The unique design of the PolySep system utilizes a proprietary adsorption module to break the chemical bond and entrain the emulsified lubricant within the adsorption module. The solids are collected in the adsorption module and the cleaned condensate is safely disposed of into the sanitary sewer.

## Kits Include

- (2) 2-way $1 / 4^{\prime \prime}$ manifolds
- (2) reducing bushings
- (8) $1 / 4^{\prime \prime}$ plugs

PS-030 and PS-060

## Advantages of PolySep Condensate Separators

- Work with biodegradable (polyglycol) fluids and ultra coolant
- Also work with mineral oil, PAO's, polysol esters, and diesters
- No electricity - rated for 250 psi
- Fully automatic
- Multiple capacities allow for systems that use multiple equipment with different lubricant to be sent to one location for separation
- Easy to maintain - adsorption modules are sized to operate 8,000 hours or for one year under standard operating conditions; adsorption modules are self-contained and easy to change and dispose
- 1-year warranty

## In-line Air Filters

Ingersoll Rand coalescing filters save energy and protect your tools, machinery, and equipment from harmful contaminants by effectively removing solid particulates, liquid water, oil, and aerosols from compressed air.
Unique in design, these in-line filters allow simple and fast maintenance with a patented zero-clearance element removal. Lighted indication ensures continued filtration performance. When it is time to replace the filter element, the lighted Element Change Indicator will illuminate with a rapid flash allowing your process to be continuously protected while minimizing the pressure drop in the compressed air system - saving you money.
Our general purpose filters remove particulates down to 1.0 micron, which meets general industry requirements for coarse filtration. Our high-efficiency filters remove contaminants down to 0.01 micron, which meets difficult compressed air filtration requirements.

## Air Compressor Accessories

## Aluminum Piping and Tubing

SimplAir EL
SimplAir EL is designed to provide an efficient, low-cost method of installing compressed air piping systems. SimplAir EL is a unique, round aluminum extrusion, manufactured in line with SimplAir's advanced piping concept.

## Benefits

- Good-quality air
- More efficient air delivery
- Reduced pressure loss
- Higher flow rates
- Easy and fast installation

| Part <br> Number | Tube OD in (mm) | Tube <br> Length <br> ft (m) | Package Quantity ft (m) | $\begin{gathered} \text { cfm @ } \\ 103 \text { psig } \end{gathered}$ | $\begin{gathered} \text { cfm @ } \\ 118 \text { psig } \end{gathered}$ | $\begin{gathered} \text { cfm @ } \\ 147 \text { psig } \end{gathered}$ |

## SimplAir EL Fittings

- Provides ideal connection from the compressed air receiver throughout the entire distribution system, right to the point-of-use
- A compressed air piping system can be installed quickly and easily, considerably reducing production downtime
- No need to prepare threaded pipe or apply solvent - all connections can be made with a simple pushin action
- Complex systems can be assembled much more rapidly than with traditional methods
- Since they also are easy to disconnect, systems can be altered or extended with little effort

| WATER TRAP TEE CONVERTER |  |  |
| 38332714 | N/A | $1-1 / 4^{\prime \prime}(28)$ |

## Water Trap Tee

The unique water trap tee helps reduce continual moisture in a piping system and is an easy alternative to installing swan and goose necks.

Water Trap Tee Converter
The water trap tee converter is a simple and convenient way to convert a standard 1-1/4" (28 mm) tee into a water trap tee. When fitted, it will stop condensed water within the piping system from entering the vertical take-off spurs.

Loop-fast Hanging System

## SimplAir EL Installation

## The Old Way

A time-consuming and difficult process.

## Solvent Weld

Long installation time; system needs to be shut down for drying.

## The SimplAir EL Way

One simple movement provides a secure connection and the system is immediately ready for use.

- Designed for piping system applications
- Safe, secure, and leakproof
- Easy to install
- Easy to disconnect and reconfigure
- Many millions of fittings in use
- Working pressures from 0 to 10 bar
- Tested to ANSI B31.1

## Easy Installation

- To make a connection, simply push the tube in by hand
- The unique, patented SimplAir EL collet locking system holds the tube firmly in place without deforming it or restricting flow
Pipe Cutting
- Cut the pipe cleanly to ensure it is free of score marks
- For SimplAir EL aluminum pipe, use a SimplAir EL pipe cutter
- Do not use a hacksaw
- To avoid damage to the O-ring, make sure burs and sharp edges are removed

## Use a SimPlair EL Pipe Cutter

## SimplAir EL Installation continued

## 5/8" and 1" Fittings

## Make a Connection

1. Fittings and pipe should be clean and undamaged before use.

2. With the fitting clean and undamaged, and the pipe cut squarely as described, you are now ready to make the connection.

Push Up to Pipe Stop

3. Push the pipe into the fitting to the pipe stop. The collet (gripper) has stainless steel teeth that will hold the pipe firmly in position while the O-ring provides a permanent leakproof seal.

Pull to Check if Secure

4. Pull on the pipe to check that it is secure. It is critical to test the system prior to leaving the site or before use.

## Disconnect

1. Ensure the system is depressurized.
2. Push the collet in and remove the pipe.
3. Push in collet squarely against the face of the fitting.
4. With the collet held in this position, the pipe can be removed, and the fitting can be reused.

## Installation

## Installing a Piping System

1. Attach only the horizontal pipe clips.
2. Only after a small amount of pressure has been applied to the system, attach the clips to the vertical pipes. This will ensure the vertical pipes have positioned themselves correctly before they are clipped.
3. On long pipe runs, install an expansion bend every $75^{\prime}$ ( 25 m ).

Install vertical clips after the system is pressurized.

## Installing a Piping System Around a Column

1. Maintain a distance of approximately $4^{\prime \prime}(10 \mathrm{~cm})$ between the wall and the pipe.
2. Always maintain a distance of $20^{\prime \prime}(50 \mathrm{~cm})$ between the fittings and the pipe clip.

| INLINE FILTER |  | 22 | 5 | 0.1 |
| F01-02-000 | $1 / 4^{\prime \prime}$ |  |  |  |

## Features

- Designed to provide protection for portable pneumatic hand tools

- Weighs only 2 ounces
- Throw-away filter element rated at 5 microns
- Either port may be used as the inlet port
- Flow is 22 cfm
- Maximum inlet pressures to 150 psig

## Air Tool Oil

Using a lubricator with genuine Ingersoll Rand Air Tool Oil will keep your tools running at peak performance. See page 124 for air tool oil offerings.

## Accessories

| Part | Port Size (F) <br> NPT <br> in | Flow <br> Rate <br> cfm | Bowl <br> Size <br> oz | Weight |
| :--- | :---: | :---: | :---: | :---: |

Ingersoll Rand lubrication equipment reflects the same high standards of performance as Ingersoll Rand tools and air compressors, with a full range of products that will keep all types of fluids moving efficiently. They are backed by more than 70 years of experience in pump and air system technology, and include models specifically designed for popular applications.

## LM and LP Series Piston Pumps

Built Tough to Fit the Way You Work

Ingersoll Rand LM Series piston pumps deliver unmatched industrial-strength performance for pumping fluids with sizes to fit small ( $16 \mathrm{gal} / 35 \mathrm{lb}$ ) or large ( $275 \mathrm{gal} / 400 \mathrm{lb}$ ) containers. Working flow rates range from 2 to 6 gallons per minute. Pumps are offered from 3:1 to 50:1 ratios, in order to meet the requirements of any application. Our LM Series is ideal for pumping grease, motor oil, gear oil, or transmission fluid. The simple, durable design allows for piston pump service by any owner or qualified technician. Also look for our convenient grease and oil pump packages.

## Features and Benefits

- Pump's patented design improves flow, reduces pulsation, and extends service life
- Offers simple self-service maintenance due to advanced design with $50 \%$ fewer parts
- Reduces service time, due to inline service design with no special tools required
- Features stall-free, ice-free air motor with tough, durable housing
...and put pump back in service in a matter of minutes.

## Inline Service for 3:1 Piston Pumps

..allows you to replace all dynamic service kit items no additional wrenches required for $3: 1 \ldots$

## PISTON PUMPS

## Motor Oil, Gear Oil, and Transmission Fluid

## 612041-1

This 1:1 ratio pump is ideal for pumping motor oil, gear oil, and transmission fluid. This model fits a standard 55-gallon drum (including bung adapter).

## 612042-1

Our 1:1 ratio piston pumps are ideal for moving oils and fluids at high volumes. This model is designed for 275 -gallon onboard tanks.

## 662410-B

425 Series pumps are designed with a $9: 1$ pump ratio, $1 / 4^{\prime \prime}$ air motor, and are ideal for pumping heavy oils over long distances.

## Diaphragm Pumps

Our diaphragm pumps are ideal for pumping oil or other light fluids such as anti-freeze, water, windshield fluid, fuel, solvents, transmission fluid, and waste oil. ARO diaphragm pumps range in size from $3 / 8^{\prime \prime}$ to $2^{\prime \prime}$ to meet the requirements of any application.

## Features and Benefits

- Ideal for abrasion and solids handling
- From top to bottom, ARO's flap valve pump is your best high solids-handling choice
- Bolted construction for reliability and ease of assembly
- Bolted is safer
- Bolted is reliable
- Bolted is easier to assemble
- Bolted is less expensive
- Positive priming provides instant start-ups
- ARO's patented "unbalanced" air valve
- Eliminates shifting / freezing problems
- Uses significantly less power than competition
- Does not require lubrication
- Forgiving in dirty air
- Unstallable air motor design: SimulShift ${ }^{\mathrm{TM}}$
- Broad material selection
- Commitment - Ingersoll Rand diaphragm pumps come with a 5-year warranty.

## Ingersoll Rand Ultra-duty Hose Reels

## Fully Redesigned with You in Mind

The new Ingersoll Rand ultra-duty hose reels offer improved strength and durability in a hose reel design. The versatile guide arm adjusts for convenient wall, floor, and ceiling mounting positions. Models are available for air, water, oil, and fluid service. The Safety-Reel design (SR models) features a controlled retraction mechanism to reduce personal property damage and to improve operator safety.

## Features and Benefits

- Safety-Reel models feature 80\% slower retraction to reduce personal property damage and improve operator safety
- Spun steel disc design for added strength and durability
- Containerized spring motor for fast and convenient maintenance
- Solid steel axle with precision bearings for smooth rotation

Fast, convenient maintenance $\quad \square \quad$ Versatile mounting arm Normal wear items like swivel Positions include wall, floo seals are external to eliminate dismounting for repairs

Improved operator safety
80\% slower retraction for Safety-Reel models

Cartridge-style
containerized
spring motor
Easy, safe replacement
with just two bolts

## Ingersoll Rand Supreme-duty Hose Reels

The supreme-duty series is designed for vehicle or heavy-duty applications requiring extra life and enhanced durability. Dual pedestal design offers triple-axle support points for improved strength and stability. Models are available for air, water, and fluid service. The Safety-Reel design (SR models) feature a controlled retraction mechanism to reduce personal property damage and to improve operator safety.

## Features and Benefits

- Triple-axle support
- Dual-pedestal design for vehicle applications
- Spun steel disc design for added strength and durability
- Safety-Reel feature $80 \%$ slower retraction to reduce personal property damage and improve operator safety
- Adjustable guide arm for wall, floor, and ceiling mounting positions.

| HAND-HELD GREASE GUNS | 7,500 | 4 -jaw | $6^{\prime \prime}$ extension and $18^{\prime \prime}$ whip hose |  |
| 550 | N/A | 6,000 | 4 -jaw | $4^{\prime \prime}$ extension and 18" whip hose |
| 570 | 150 | 6,000 | 4 -jaw | $6^{\prime \prime}$ extension |
| 590 | 150 | 4 -jaw | $6^{\prime \prime}$ extension |  |
| 5190 |  |  |  |  |

## 550

## Hand-held Grease Gun

This heavy-duty grease gun has a comfort grip handle and can output up to 10,000 psi. Features include an easy-to-load locking plunger and ergonomic T-handle. A filler nipple and air vent are also included. The 550 comes standard with a $6^{\prime \prime}$ angle extension and an $18^{\prime \prime}$ whip hose, both with a 4-jaw coupler.

## 590

## Hand-held Grease Gun

This heavy-duty grease gun has a $40: 1$ pressure ratio, an easy-to-load locking plunger, an ergonomic T-handle, a filler nipple, and air vent. The 590 comes standard with a $6^{\prime \prime}$ angle extension with a 4-jaw coupler.

## 570

## Hand-held Grease Gun

This heavy-duty grease gun has a comfort grip handle and can output up to 7,500 psi. Features include an easy-to-load locking plunger, an ergonomic T-handle, a filler nipple, and air vent. The 570 comes standard with a $3-1 / 2^{\prime \prime}$ straight extension and an $18^{\prime \prime}$ whip hose, both with a 4-jaw coupler.

## 5190

Hand-held Grease Gun
A new, ergonomic design, the 5190 grease gun has a handle that can be swiveled $180^{\circ}$ from the cartridge. The larger handle improves comfort while still packing a 40:1 pressure ratio.

## Self-evacuating Waste Oil Caddies

We offer a fast and affordable way to transfer used oil to any bulk storage tank using compressed air. Ingersoll Rand self-evacuating waste oil caddies eliminate the need for waste oil pumps. Reduce drainage downtime and dangerous spills while increasing your productivity.

## Features and Benefits

- Compatible with most existing shop air systems, unlike many other caddies that require restricted psi
- Offers increased mobility with casters on all corners, two that lock
- Increases productivity with shorter drain time, and more time in the bay
- Comes standard with regulator, gauge, and either a $6^{\prime}$ hose with nozzle or a 3/4" cam coupler
- Minimizes spills with an automatic ball check valve in the down tube
- Compatibility - Our oil caddies will work with existing shop air systems up to 70 psi
- Dependability - Tank empties in minutes, allowing you to get back to your work faster
- Safety - A specially designed automatic ball check valve prevents oil release when emptying tank

## 62131

Self-evacuating Oil Caddy

- 21-gallon tank
- Comes complete with 6' drainage hose and nozzle

## Self-evacuating Oil Caddy

|  | Max Inlet <br> Pressure <br> psi (bar) | Tank <br> Capacity <br> gal (L) | Height <br> in $(\mathrm{m})$ | Fluid <br> Onlet <br> Outlet |

## Fresh Oil Caddy

24 -gallon Ingersoll Rand fresh oil caddy system provides a cost effective solution for dispensing synthetic oil. These caddies are easy to use and require minimal maintenance. The fresh oil caddy system eliminates the need to add costly bulk storage tanks for oils and fluids. Specialized fluids, such as $5 \mathrm{~W}-20$ synthetic motor oils, can now be stored in a fresh oil caddy system and wheeled to the vehicle to be dispensed.

## Features and Benefits

- Our fresh oil caddy has the mobility to go where your job takes you
- Increases productivity by increasing mobility
- Uses a 3:1 piston pump with air filter / regulator and gauge
- Dispenses fluids through a $6^{\prime}$ hose with $1 / 2^{\prime \prime}$ diameter
- Includes a digital dispensing meter (totalizing)
- Improves mobility around the shop with $6^{\prime \prime}$ front casters

612999-24
Fresh Oil Caddy

- 24-gal fresh oil caddy with dispensing nozzle

## Accessories

Ingersoll Rand offers an extensive line of accessories to match your tools with the requirements of every job. These accessories put the reliability and quality of Ingersoll Rand behind every job you do.

## Ingersoll Rand Lubricants

It goes without saying that proper lubrication of any tool is essential if you want the tool to last. By lubricating your air tools, you'll prolong the life of tool motors, governors, clutches, and other important impact mechanisms. Ingersoll Rand offers a complete line of specialized oils and greases to complement our full line of air tools.

## Air Care Kits

## Gloves

With this line of industry-leading work gloves from Ingersoll Rand, you can pair up the industry's toughest tools - ours - with gloves that offer the utmost in protection, comfort, and performance.

| Part Number | Description | Quantity | Size |
| :--- | :--- | :--- | :--- |
| IR-G SERIES |  |  |  |
| IR-GL-1 | Ingersoll Rand mechanic gloves | 1 pair | Large |
| IR-GXL-1 | Ingersoll Rand mechanic gloves | 1 pair | Extra-large |
| TGSL-G SERIES |  |  |  |
| TGSL-GL-1 | ThunderGun impact gloves | 1 pair | Large |
| TGSL-GXL-1 | ThunderGun impact gloves | 1 pair | Extra-large |
| TNT-G SERIES |  |  |  |
| TNT-GL-1 | Titanium impact gloves | 1 pair | Large |
| TNT-GXL-1 | Titanium impact gloves | 1 pair | Extra-large |

## IR-G Series

- Provide protection during day-to-day jobs
- Machine washable Clarino ${ }^{\bullet}$ synthetic palm construction allows full finger dexterity and enhanced tool handling
- Spandex top ensures comfortable fit

## TGSL-G Series

- Silicon gel palm padding reduces tool vibrations and minimizes fatigue
- Machine washable Clarino synthetic palm construction allows full finger dexterity and enhanced tool handling
- Airprene knuckle panel provides greater protection, ventilation, and comfort
- Looks great with the ThunderGun Impactool

TNT-G Series

- Silicon finger and thumb grippers enhance tool control
- Neoprene top offers impact protection while allowing increased comfort and dexterity
- 3 mm gel palm pads reduce hand fatigue
- Ideal for Ingersoll Rand titanium tools
 performance

## Features

- Superior elasticity and coil memory mean a cleaner work environment
- Outstanding flexibility increases operator comfort
- $25 \%$ lighter than rubber hose, reducing operator fatigue
- Abrasion and kink resistance increase lifetime
- Tight coil diameter allows easy entry into confined spaces
- Non-marring surface won't harm work pieces
- Broad chemical resistance makes hoses suitable for most environments
- Better than $80 \%$ working length extends your work space
- Straight tails on both ends eliminate workstation tangles
- Reusable MNPT fittings allow field retrofits
- Thread sealant on all fittings provides for leak-free joints

## Features

- 6-year warranty
- Longer life than PVC
- Reinforced innermost tube, resistant to the materials it is intended to convey
- Extended life bend restrictors
- Increased flexibility in cold temperatures
- Designed to withstand the harshest jobsite conditions

- Extended service life due to number of threads, spirals, and thickness of rubber tube

## Spring Balancers

- 19 models to choose from
- Three different series to meet all balancing requirements
- Lifts ranging from 4-1/4' to 8.2'
- Covers weight balancing needs from 1 to 30 lb
- Made of rugged die-cast aluminum
- Safety locking device in case of spring breakage on medium-duty models
- Easy-to-use controls allow for accurate spring adjustment

| 38038188 | Soft-grip safety air <br> gun with air nozzle | $1 / 4^{\prime \prime}$ | $60^{\prime \prime}$ aluminum |

- Ideal for hours of continuous use without fatigue
- Ergonomic design keeps the hand in a comfortable position and incorporates a large trigger that permits operation with one or more fingers
- Durable case aluminum body is suited for rugged industrial use and includes a convenient hanger hook for storage

Applications

- Parts cleaning
- Chip removal
- Part drying
- Liquid blow-off
- Part cooling
- Material conveying
- Part ejection
- Fiber conveying
- Air assist

## Adjustable Spot Cooler

| Part Number | Description |
| :--- | ---: |
| ADJUSTABLE SPOT COOLER |  |
| 38037735 | Adjustable spot cooler (one cold outlet) |

## Applications

- Adjusting thermostats
- Cooling solder
- Cooling machined plastics
- Setting hot melts
- Cooling welding horns
- Cooling molded plastics
- Electronic component cooling
- Cooling gas samples
- Cooling environmental chambers

## Advantages

- Reduce compressed air cost
- 10 dBA average noise reduction
- Improved blow-off performance
- Compact
- Meet OSHA noise level requirements
- Meet OSHA pressure requirements

Air Nozzles

38038097

38038105

## (0)

Ingersoll Rand pullers and hoists are designed to handle the tough
pulling or lifting jobs, with minimal effort by the operator. Whether it's a low-, medium-, or heavy-duty job, you can trust our pullers and hoists to carry the load safely and easily.

## P-Series Pullers

They'll pull up to $2,000 \mathrm{lb}$ with no problem - and there's no hard work for you, either. Extremely strong and well-made, the Ingersoll Rand $P$-Series are high-quality, dependable wire rope pullers for low- and medium-duty pulling and lifting jobs.

- Made for superior strength with a steel frame and handle, alloy steel load hook, 1-piece cast aluminum drum, and solid steel drive and holding dog
- 4:1 design factor for lifting or pulling
- Long-lasting gears through the extra heavy Ingersoll Rand buttress tooth design

## C-Series Pullers

The C-Series includes rugged cast aluminum wire rope pullers designed to store more wire rope than all-steel ratchet pullers. With a rigged double line, they handle those long reach pulling or lifting jobs up to $3,400 \mathrm{lb}$ with no problem.

- Extremely strong, with a solid cast steel drive and holding dog
- Heavy-duty cast aluminum drum and lightweight aluminum frame, alloy steel load hook with safety latches
Safe lowering is assured by the ratchet and pawl system. The gear teeth use the Ingersoll Rand buttress tooth design for additional strength and longer gear life.

C-Series Pullers

| Model | Number of Lines | Rated Capacity Ib | Min Distance Between Hooks in | Lifting Distance ft | Cable Diameter in | Number of Hooks | Net Weight lb |

## PT-8 Trolley Series

## Plain 1/2 to 5 Metric Ton

Our plain trolley is rated for both manual or powered hoists, and has the versatility to fit most types of beams.

## Standard features

- The 5:1 design factor allows the PT-8 Series to be used with both manual or powered hoists; meets pertinent U.S. (ASME / ANSI and CMAA), Canadian, and European standards
- The side plates, including the rail sweeps / drop stops, are made of cold-formed steel for strength, durability, and even load distribution
- The wheel axles are rivet-locked in place so they won't come loose - they are not knurled, welded, or modified bolts
- The wheels are cast iron - the universal tread fits both flat and tapered beams

- Wheels run on sealed, "lubed-for-life" ball bearings; smoother rolling with less effort and less maintenance
- Wide hanger shaft assemblies allow PT-8 Series trollies to fit almost any I beam, H beam, or patented track beam up to 8.06 in ( 205 mm ) wide
- PT-8 Series trolley hanger shafts are designed to accept all hoist brands and have a squared out recess to accept round or squared hook shapes; the trolleys are painted black for universal coordination

## Silver Series Lever Chain Hoists

3/4 to 6 Metric Ton Lifting Capacity
Meeting ANSI / ASME B30.16 and all pertinent world standards, the "-E" signifies compliance with Europe's EC95 Machinery Directive.
The patent-pending, arrow-notch free-chain system is simple and reliable. Just one hand turns the indicator, and operators will enjoy the easiest free-chaining we have ever tested. Try to operate a Silver Series hoist in free-chain mode and the brake instantly engages, holding the load and minimizing the risk of an accident. Specify required lift in feet in the "L" position of model number.

Silver Series hoists have a zinc-nickel-chrome-plated finish. It's more durable and corrosion-resistant than paint. Plus, the Silver Series has the quality features you expect from Ingersoll Rand.

- All-steel construction
- $360^{\circ}$ handle rotation
- Rubber handle grip in all sizes
- Reliable disc brake
- Premium-grade alloy chain
- Hardened swivel-latch hooks
- Lightweight
- Low handle force

- Short handle stroke
- Standard lifts of $5,10,15$, and 20 feet

## How to order

Specify required lift in feet in the "L" position of model number.
Example
SL150-15-EA = 3/4 ton, with 15 feet of lift.

| Model | Rat <br> Capa <br> Metric tons | ated pacity <br> (b) | Pull to Lift Rated Load lb | No. of Chain Falls | $\underset{\mathrm{mm}(\mathrm{in})}{\mathrm{A}}$ | $\begin{gathered} B \\ \mathrm{~mm} \text { (in) } \end{gathered}$ | $\underset{\mathrm{mm}(\mathrm{in})}{\mathrm{C}}$ | $\stackrel{D}{\mathrm{~mm}(\mathrm{in})}$ | $\underset{\mathrm{mm}(\mathrm{in})}{\mathrm{E}}$ | $\begin{aligned} & \text { F (min) } \\ & \mathrm{mm}(\mathrm{in}) \end{aligned}$ | $\begin{gathered} \varnothing \\ \mathrm{mm}(\mathrm{in}) \end{gathered}$ |  | Chain <br> (in) |

## SMB Manual Chain Hoists

Ingersoll Rand SMB Silver Series manual chain hoists offer the strength and durability you need in tough lifting situations. Their high-strength, all-stamped steel construction provides decreased weight and better impact resistance. In addition, the hoists feature roller bearings on input shafts and efficient gear reductions for easier lifting. Standard overload protection reduces downtime and repair costs resulting from abuse.

- Efficient gear reductions minimize hand chain overhauled to lift loads
- Encased and retained roller bearings for increased efficiency and ease of maintenance
- Single chain fall through 3 tons
- Nickel / chrome-plated exterior and zinc-plated frame components for increased corrosion resistance
- Double hand chain guides for smooth operation when pulling excess chain
- Open frame design for easy cleaning and inspection
- CE certified; hoists meet or exceed regional requirements including ASME B30.16, HST-2M
- Hardened swivel-latch hooks
